ROOSEVELT IN ADDRESS WARNS NATIONS OF PERIL

BERLIN, May 12.—Theodore Roosevelt to-day took his place with the savants of Germany, delivering an address at the University of Berlin to which Teutonic scholars have been looking forward for months. As the former President left the hall he was mobbed by cheering crowds that broke through the cordons of police. A squad of mounted men, flourishing sabres, rescued Mr. Roosevelt with difficulty and he was whisked off by auto to the American embassy.

The Kaiser and the Kaiserin were among the foremost in the audience, which also included the first men of the nation in official, military and scientific circles.

EX-PRESIDENT SOUNDS WARNING TO THE WORLD.

Taking for his topic "The World Movement," and tracing the progress of the human race, Mr. Roosevelt sounded a warning to modern society. After comparing modern civilization with those that have gone before it, he said:

"There are signs that bode ill. The machinery is so high-geared, the tension and strain are so great, that there is cause to dread that ruin that would come from any great accident, or from the mere wearing out of the machine itself."

In concluding, he reverted to this phase of his subject, saying: "We shall not go down in ruin unless we deserve and earn our end. There is no necessity for us to fail. Personally, I do not believe that our civilization will fail."

Modern conditions, he said, gave the human race for the first time something approaching a world civilization.

A notable paragraph in the speech refers to Japan. After declaring that in some phases modern civilization is inferior to ours, he cites Japan as "the most extraordinary instance of how a strong people is profoundly and radically changed by the mere import of Western civilization. Japan's growth and change in the last half century has been in many ways the most striking phenomenon of all history."

CIVIL SERVICE BAN A HEAVY BLOW TO FORMER CITY HEAD

Former Mayor George A. Hibbard is ill with tuberculosis of the lungs, it was announced by the Boston Board of Health and at the Hibbard home in Ashmont.

These sad tidings were carried to the former Mayor by Dr. Edward T. Twitchell, his family physician, who had received the result of a culture that had been left with the health board for examination.

HIBBARD HOME A HOUSE OF SORROW.

Coming as it did right on top of the turning down of the former Mayor by the Massachusetts Civil Service Commission, it plunged the Hibbard home into a house of sorrow.

More than that, it became known to-day that the family is practically penniless—absolutely without money with which the former Mayor might make an effort in a milder climate to regain his health.

Two girls that have been employed as maids in the family were told to-day that they would have to look for new employment as there is no money with which to pay them any longer. From now on Mrs. Hibbard will have to get along as her own housekeeper.

Ex-Mayor Makes Statement.

In a statement himself to-day, the former Mayor declared that the action of the commission branded him with a crime, and that the commission should be forced to tell what the charges were against him and who made them. This is the former Mayor's statement given out to-day:

I believe this to be another chapter of the last municipal campaign. If it is a fact that the condition of health was the occasion of my rejection it is quite remarkable that my physician was not consulted at all.

To-day I stand a man convicted of a crime I know not what, with no opportunity to defend myself. What a farce on justice!

No man can afford to go before these three wise men of the East with any knowledge as to what the outcome will be; they should be compelled to make public the charges against appointees, and give the names of the parties preferring them. If they are not willing the Legislature should compel them.

Now that I am out of public life I trust that I may be allowed a little respite, for this morning my physician discovered that I have tuberculosis of my right lung.

One Way Out of Difficulty.

Friends of Hibbard suggested to-day that if he were able to do the work that the Mayor must appoint him to a clerkship in the city collector's office and then promote him to be acting collector, leaving the head of the office nominally vacant. It was said by others that Mr. Hibbard would probably not be able to undertake any city work.

Boston generally was greatly surprised and in many instances distinctly shocked to-day when it was learned that the Civil Service Commission had refused to confirm the appointment of Hibbard.

Mayor Fitzgerald pointed out to-day that he and the city are absolutely at the mercy of a commission, appointed by the Governor of the State, every member of which is a resident outside of the city of Boston. This, the Mayor points out, is a violation of home rule and is repugnant to every person who believes in the principle of home rule.

Mayor Fitzgerald appointed the former

GREATEST U. S. WARSHIP IS LAUNCHED

NEW YORK, May 12.—Thirty thousand men, women and children gathered to-day at the Brooklyn Navy Yard to witness the launching of Uncle Sam's greatest floating fighting machine, the dreadnought Florida. More than 500 of the nation's dignitaries gathered for the ceremonies. The launching, which was most successful, took place at 11:25 o'clock.

Although President Taft could not leave Washington, there were present to-day some of the foremost figures from the capital, including Vice-President Sherman, Secretary of the Navy George von L. Meyer, Admiral George Dewey, Chief Constructor Capps, Assistant Secretary Winthrop and many graybaired rear admirals, old sea dogs who have seen the navy grow from the days of wooden frigates. Rear Admiral Leutze was there, as well as Senator Schroeder, commander-in-chief of the Atlantic fleet; his chief of staff, Captain Albert L. Key, and Rear Admirals Sperry, "Fighting Bob" Evans, Wainwright and Potter.

Governor Hughes of New York and staff had come from Albany, and the State officer which the battleship is named was represented by Governor Albert W. Gilchrist.

Besides Miss Elizabeth Fleming, the sponsor, the "bridesmaids" were Miss Alice Buckman, Jacksonville; Miss Lucy Mitton, Sarasota; Miss Eugenia Carter, Pensacola; Miss Nellie Fletcher, daughter of Senator Fletcher, and Miss Genevieve Blount, daughter of ex-Congressman Heraldo Blount.

Before to-day the North Dakota was the largest, most heavily gunned and fastest of the great United States battleships.

No battleship anywhere has exceeded the speed of the Connecticut, which was also Government built, and the Florida is to be heavier by 6,000 tons than was the Connecticut, and 6,000 tons above the displacement of the Maine, also Government built, which was blown up in Havana harbor.

Her main batteries will consist of ten 12-inch breech-loading rifles. The Connecticut's number only four, and the North Dakota's ten. The weight of the Florida's broadside will be 12,500 tons. The cost of her broadside will be $20,000, not to mention what it will cost to fire her secondary batteries of sixteen 6-inch rapid fire guns and her four 1-pound semi-automatics, her two 3-inch field pieces, two machine guns, and two 21-inch submerged torpedo tubes.

To keep her in commission with a crew of 900 will cost the nation more than $1,000,000 a year.

LABOR WINS FIGHT.

After a controversy of four years Electrical Workers' Union No. 103 and the officials of the Barnes-Pope Company, one of the largest electrical contracting concerns in Boston, made a settlement to-day. The Barnes-Pope Company hereafter will pay union wages.

THIEVES GET $3,000.

MOUNT PLEASANT, Mich., May 12.—A gang of robbers blew the postoffice safe here early to-day, securing $3,000 in stamps and $50 in money, after which they mounted horses and escaped.

BIG BLOCK O' BABIES.

CHICAGO, May 12.—Eleven hundred and twenty-five children live in one Chicago block according to the school census just completed.

WHITING AND MILK PROBERS IN CLASH

George Whiting of the firm of D. Whiting & Co., one of the biggest individuals in the Boston milk trade, was severely rebuked to-day by the legislative Investigating Committee in session at the State House.

After a tilt with Senator Meaney of Blackstone, a member of the committee and one of the staunchest friends of the producers, Whiting insisted that he could not answer the questions of the Senator regarding the cost of milk. The committee room was in an uproar and finally the members held a short secret session. Then the chairman, Senator Mollen, addressing the witness said:

"Mr. Whiting, please answer all questions directly and do not try to evade them."

"I am answering the questions honestly," Mr. Whiting replied, "and I am sorry it I do not make myself clear."

The clash came over Senator Meaney's insistance that the witness tell the committee what milk costs the contractor a quart. "I will let your committee see my books," answered Mr. Whiting.

"It is possible that the producers may be able to prove their case with your books," said Mr. Meaney, "but it seems to me that a man with thirty years' experience in the milk business ought to be able to tell what milk costs, approximately."

Mr. Whiting insisted that the books would be furnished and that was the best way to get at the figures.

Tells of Price Cutting.

Senator Tinkham took a prominent part in the questioning that followed. "Can the people of Boston be supplied with milk even if the producers in this neighborhood withdraw all that they have been sending?" he asked.

Whiting—The consumers could be supplied with cases.

Tinkham—Have you the figures to show the difference in cost between bringing milk from New York State and from within the fifty-mile limit of Boston?

Whiting—I will give that with my report.

Tinkham—Has there ever been any price-cutting in the milk business in Boston?

Whiting—The Boston Dairy Company is the only offender—I also recall the H. P. Hood Company.

Meaney—Didn't you try to whip them into line?

Whiting—No. If there were a way to double adopt it.

Mr. Whiting declared that milk in New York was cheaper than in this State because the farms were larger and more fertile. He said that the business ought to pay at least ten per cent, on a capitalization of $4,000,000 of a million dollars, but that it paid only four per cent.

Transportation Cost 14 per Cent.

Upon taking the stand Mr. Whiting stated that he had erred in his testimony yesterday when he said that 25 per cent. of the cost of milk to him was in meeting transportation charges. He said that the transportation charges were about 9 per cent., but that if the cost of icing and labor were added it brought the cost to 14 per cent.

When asked by Mr. Gardiner why the system used in the Berkshires for shipping milk to New York at a rate much lower than that in Eastern Massachusetts could not be used here Boston, Mr. Whiting answered:

"The present system of transporting milk in Eastern New England is the best which could be arranged under the existing circumstances. The average dairies in the Eastern part of Massachusetts are small, necessitating the running of a car as a much persecuted man.

forty to sixty miles to get it filled. In the Berkshires a car can be loaded at a single point, sealed and sent to New York without the need of once takers. It is absolutely necessary to employ care takers for these cars in Eastern Massachusetts.

Five thousand cans have been already purchased and a large order has been placed for many more, as the start in the organization of a $1,000,000 stock company by milk producers, who will market their own product in this city, thus completely eliminating the middleman, or contractor, they say.

This is the latest development of the milk strike that has been on for ten days and into which a legislative committee has been delving. The members of the new company say that it will result in milk producers getting better pay for the milk and the consumers getting it for less than they do now.

NATIONAL LEAGUE GROUNDS, St. Louis, May 12.—There were better prospects of a game being pulled off between the Cardinals and the Doves, which was the last chance the teams had to decide the series which stood one all, and each band was anxious to settle the tie standing.

There is a grouch on all over the country against the weather by the baseball fans, but the local fans in all justice have a right to roll it anybody has, for there has not been a National League team stopping here that is not due to play a double header on the next trip touching here.

The holdup of yesterday just whetted the appetites for the followers of the game this afternoon, and they were ready when the gates split open to fall on the seats to below for Bresnahan and his workmen.

One of the best in Bresnahan's stock of pitchers, Lester Backman, who has been making all the teams step lively, was slated to set on the mound, while Cecil Ferguson, the big blonde, had the call for his first service in a big game this year.

AMBY M'CONNELL OUT NEXT WEEK

Amby McConnell, the Red Sox ball player, who is at the Melrowell Hospital recovering from an operation for appendicitis, is improving every day, and will be able to sit up for the first time Saturday. Dr. William A. Brooks, Jr., the surgeon who performed the operation, says the ball player ought to be out for a short time by the first of next week.

HUNTINGTON AVENUE GROUNDS, May 12.—There were plenty of wagers that the Red Sox would make it three straight on the Browns when they lined up on the battlefield for the third clash of the series and the support was solid behind the home stock.

The Browns proved such nice victims in the games played and the local warriors going at burning speed there didn't appear the least chance for the westerners.

Another display of fast tactics by Donahue's men meant certain destruction for the tribe from the "show me" State, unless they sprung an unexpected rally which the Boston live ones couldn't see in time to check.

There was no slowing up in the ranks of the leaders who are seeking a first division berth at the expense of the western clubs and the Browns seemed to feel a scare.

Connors was undecided whether to use another left-hander in Graham or by his old veteran Jack Powell till time for the bell.

Manager Donovan had in his mind to try a left-hander against the visitors and had Eddie Karger ready with Ray Collins also warming up for emergency.

SALARY FORTY YEARS LATE.

FOND DU LAC, Wis., May 12.—After a lapse of forty years the United States government will pay Bishop C. C. Grafton $720, salary due late Commander Edward C. Grafton for services during the Civil War. SUNDAY AMERICAN.

LINER CYMRIC IN GALE IS HIT BY LIGHTNING

The White Star liner Cymric arrived in port at noon, half a day late, owing to a gale at sea yesterday. A bolt of lightning struck the foremast, but did no damage. The Cymric brought 54 saloon and 321 steerage passengers. Among the passengers were Sir Schomburgk Cunningham, C. Clipston Sturgis, who went abroad on a Venetian honeymoon.

"There is no politics in my return to Boston," said Mr. Sturgis to a reporter for the AMERICAN.

When asked if he had any opinion to give on the attitude of the Civil Service Commissioners in refusing to confirm Mayor Fitzgerald's appointees, he said:

"It makes a mess of a mess, doesn't it?" Other passengers were Lady Lefarde Bellingham of the famous Bellingham Castle in England, who comes here on a visit to the Perrys on Marlboro street; the Rev. R. Clemens of Sommerville, the Rev. H. J. Gilfeather of Lynn, Woodbury L. Fowle, Jr., and Thomas James B. Lindsey, chief of the division of property and salaries in the Department of Education, Porto Rico, who is home on a vacation. Mrs. Harmon Tucker of Boston, Mass., who left in the Chapman revival campaign here, who returns from England, where he assisted in a number of religious meetings.

HEINZE CASE GOES TO JURORS TO-DAY

NEW YORK, May 12.—When the trial of F. Augustus Heinze, accused of violating Federal banking laws while head of the Mercantile National Bank, was resumed to-day, it was declared that by nightfall the case would be in the hands of the jury. Before starting his summing up Attorney Stanchfield moved that the indictment be dismissed as incompetent, irrelevant and immaterial. The motion was denied. The lawyer pictured Heinze as a Catholic.

CABINET HEARS ANTI-CATHOLIC OATH PROTEST

LONDON, May 12.—The bitter dispute aroused by the reference to the Catholic creed in the coronation oath, decided by the cabinet to-day, was brought to light by the cabinet to-day.

It is known that while King George is willing to fulfil the demands of formality without protest, he would much prefer to have the offensive words eliminated and action by the government has been looked for since the dispute arose immediately after the death of King Edward.

The proposal to strike from the oath the reference to Catholic articles of belief and the Pope has met with violent opposition, however, and throughout the Kingdom Protestant societies have met to demand that there be no alteration.

John Redmond, the Nationalist leader, has first brought up the subject. In to-day the subject of commendation and censure almost equally divided, many Protestant organizations having come to the defense of those who regard the oath as a new stumbling block.

It is pointed out by the defenders of the present form, that King George has already taken an oath which is far more drastic in its language toward the Catholics—the Scottish oath.

This is administered unostentatiously immediately upon the King's automatic accession.

The English Church Union, however, is heard from to-day, advocates a change. This is a Protestant organization.

The cabinet took the question up informally discussing the question of jurisdiction. It was pointed out that the clauses objected to were inserted in the oath by an act passed after the accession of William and Mary in 1689, and the attempt to alter it made after the death of Queen Victoria, which ended futilely, was gone over. The whole dispute has revived the rumor that King Edward died a Catholic.

BIG BATTLE IS RUMORED IN NICARAGUA

SAN JUAN DEL SUR, May 12.—The battle that will determine the fate of Estrada and Madriz in Nicaragua is expected to be raging at Rivadelda to-day, the death grapple of government and insurgents. A dispatch received here at midnight said that three columns were advancing on the town 1,800 strong.

According to the plan made by the government forces, Bonilla and Kana, defended by 2,000 insurgents, were to be attacked at the same time. Though the insurgents say the provisional capital is impregnable, additional fortifications have been thrown up within the last week.

Many Americans have fled from Rivadelda to Corinto, saying that Estrada will have no mercy in case of victory, because American money is understood to be supporting Zelaya.

The revolutionary forces consist of 7,000 men under General Mena at Rama and 1,000 under Generals Chamorro, Zelaya and Nassis at Rivadelda, while General Estrada himself holds 600 reserves at the capital. Many reinforcements are in the insurgent army. Twelve hundred of the government forces led by General Luis are believed to have been divided, while the remainder, say of 600 men is led by General Chavarria.

ROOSEVELT TO TALK POLITICS JUNE 28

CINCINNATI, May 12.—According to a letter from President John Hays Hammond of the National League of Republican Clubs, Colonel Roosevelt will make his first political speech since he left the White House on June 28, at the biennial meeting of the clubs in New York city.

LAUD EDWARD AS PEACEMAKER AT PEACE MEETING

HARTFORD, Ct., May 12.—At the closing of the New England Arbitration and Peace Congress sympathetic reference was made to the late King Edward, who was termed "Edward the Peacemaker," and specific allusion was made to President Taft, ex-President Roosevelt, Elihu Root and others for the service they have rendered the peace cause. The resolutions say in part:

"We call for such broadening of the scope of all treaties of arbitration as shall provide for reference to The Hague of all differences whatever not settled by diplomacy, and express our sense of the great service rendered by President Taft in his recent condemnation of the mischievous reservation from arbitration in most treaties of so-called questions of honor."

The two chief addresses were made by Simeon E. Baldwin, former Chief Justice of the Connecticut Supreme Court of Errors, and John W. Foster, ex-Secretary of State, of Washington. The latter said:

"All the foreign wars in which we have engaged were brought on by our own precipitate action; they were not inevitable, and they might have been avoided by the exercise of prudence and conciliation. It has been possible for us to live in peace with our nearest neighbor, with which we have the most extensive and intimate relations, the most perplexing and troublesome questions."

Edward Sims of Boston, founder of the International School of Peace, told of the magnitude of the present military system, oughly familiar with the house.

SLAYER STOLE $10,000 GEMS

NEW YORK, May 12.—All theories of Hindu vengeance in the murder of William Beeman, the butler, killed in the residence of Dr. M. D. Cannon Monday afternoon, were discarded to-day. It has been learned that valuable jewelry was stolen at the time of the crime. Its value was at least $10,000 and possibly $15,000. The police refuse to admit the larger figure. They declare they are close on the trail of the slayers. Three suspects were captured today.

Margaret Meehner, the housekeeper, was killed at the same time.

The police have one important clew to follow in the effort to solve the mystery. This is a thumb print on a piece of muslin which was found hit he house after the tragedy. It is believed that the person who committed the crime must have been thoroughly familiar with the house.

TO-DAY'S CABLE NEWS

Up to Midnight, London Time

"I'll Soon Be Hungarian," Says Countess Sigray,

VIENNA—Count and Countess Sigray (Miss Harriet Daly) have arrived at their magnificent and newly renovated Castle Ivane. Triumphal arches were erected, thousands of peasants in national costume attended the arrival and a hundred gypsies played national tunes. The fete wound up with a peasants' ball and fireworks. The Countess was delighted with the welcome, and said: "I'll soon become a Hungarian and learn the native language."

MATTAPAN TRAIN OFF THE TRACK

Five hundred passengers were shaken up to-day when the New Haven train leaving Mattapan at 8:41 was derailed at Harrison Square. None was injured, which may be accounted for by the fact that the train was running slowly. The tender left the rails and lumped on the ties for thirty feet. Traffic on the branch and on the Old Colony line was tied up for some time. The passengers of the Mattapan train were transferred to another train and brought into the South station.

A NEW REMEDY FOR ALL SKIN DISEASES

Stops the Itching and Begins Healing Immediately.

The discovery by a chemist of the new remedy, Cadum, is recognized as one of the most important advances in medical circles in recent years. Cadum is made of one of Nature's medicinal plants, the extract of which has been combined with other ingredients, each possessing in a marked degree valuable therapeutic properties. The proportion of each ingredient has been so adjusted, after much careful experimentation and investigation, that a perfected product for the treatment of skin diseases has been the result. Cadum is the most effective agent known in the treatment of eczema, two to four weeks' time being sufficient to cure ordinary cases. From the first moment, when applied, distinct and rapid relief is felt, and where the disease presents an unsightly appearance the thin coating of Cadum almost conceals the sore. This wonderful compound is equally effective in other skin troubles, such as salt rheum, ringworm, itch, acne, scabs, itching piles, chafing, prickly heat, boils, inflamed skin, red noses pimples, blackheads, psoriasis, herpes tetter, etc. Cadum is entirely free from any mercury or other poisonous and dangerous admixtures or animal fats or greases. Every ingredient of Cadum for which a standard of purity is set by the U. S. Pharmacopoeia complies with that standard, so as to insure the greatest efficiency. In color, Cadum so nearly matches that of the skin that an application is scarcely noticeable. An important feature to be noted in connection with Cadum is that it stops the terrible itching of eczema at once, and begins the healing process with the first application. It is, moreover, a harmless preparation and cannot injure the most delicate skin. Many of the results achieved by Cadum may be truly described as remarkable, and have exceeded the expectations of the chemist who gave it to the world. It is a powerful antiseptic that destroys disease-producing germs, allays inflammation and exerts a wonderfully soothing and healing influence on the skin tissues. It is a regrettable fact that skin affections are still much misunderstood, and often the most complicated treatment is undertaken at great expense, whereas such a simple and inexpensive remedy as Cadum would have saved time and expense. Sold by all druggists at 10c. and 25c.

NAVY GIRL WHO JILTED FIANCE ON WEDDING DAY

Miss Madeline Swift.

RAILROAD BILL FIGHT CERTAIN

WASHINGTON, May 12.—Senator Elkins, who has direct charge of the railroad bill in the Senate, has abandoned hope of getting a vote until the last of next week, although it is probable that it will be the week following before the measure is finally sent to conference. It is the plan to strike out all after the enacting clause of the measure as it came from the House, and substitute the bill as it is agreed to in the Senate and then fight out in conference committee the differences between the two measures.

These differences to many appear will be radical. Among the most important will be the House provision for physical valuation of railroads, the making of telegraph and telephone companies common carriers and the proposition to place the designation of the members of the proposed Court of Commerce in the hands of the Supreme Court of the United States, rather than with the President.

O'MEARA DISMISSES CHARGES.

The charges of "unnecessary absence from their routes" preferred against patrolmen Peter K. Walsh and James E. Nickerson of station 3 have been dismissed, according to a general order issued by Police Commissioner Stephen O'Meara.

MISS SWIFT TO WED NAVY MAN SHE DEFENDED

The engagement of Miss Madeline Swift, daughter of Rear Admiral William Swift, formerly commandant at the Charlestown Navy Yard, and Paymaster George Percival Auld of the United States Marine Corps, is announced to-day from Washington. It comes as a romantic sequel to the courtmartial of Auld early in the year, as a result of having knocked down Dr. E. S. Cowles of the Back Bay at a navy dance last December.

Miss Swift was keenly interested in the court martial. A short time before it was announced that her engagement to Harry Darr Storer of Atlanta, Ga., had been broken and their marriage indefinitely postponed.

Meanwhile close friends of Miss Swift said that Paymaster Auld was indirectly responsible for Miss Swift's change of heart toward Mr. Storer, and rumors of an engagement of Mr. Auld and Miss Swift were current.

It was announced at Auld's courtmartial that Dr. Cowles had made humiliating remarks about Miss Dorothy Hesler of Chicago, who was visiting naval circles in Boston.

From the first it was believed that the attachment of Paymaster Auld for Miss Swift had something to do with the quarrel between Auld and Dr. Cowles.

After the trial, where Mr. Auld escaped with slight punishment, it was announced that Passed Assistant Surgeon A. H. Robinett, who was tried immediately after Auld, had an similar charges, and Miss Hesler were to be married.

The announcement of the coming wedding of Miss Swift completes the developments which were generally suspected as a result of the navy yard quarrel which stirred navy and Back Bay circles to their depths.

Paymaster Auld is now at San Francisco, where he was transferred as result of the trouble here.

STRAW HAT MEN WIN THEIR FIGHT

WASHINGTON, May 12.—Straw hat manufacturers in New England will benefit by a decision to-day of Assistant Secretary Curtis of the Treasury Department reversing his former ruling which increased the duty on straw braid from 15 to 20 per cent. The reversal was the result of protests from the hat manufacturers of New England, as voiced by Representative Hill of Connecticut and other Congressmen.

PASTOR AKED IS CRITICALLY ILL

NEW YORK, May 12.—The Rev. Dr. Charles F. Aked, pastor of the Fifth Avenue Baptist Church—the Rockefeller church—is seriously ill with typhoid fever. Dr. A. R. McMichael, who is attending the clergyman, told an American reporter to-day that Dr. Aked for four days has had a temperature of 104, but that he is making a brave fight for recovery with bright prospects.

LOWELL TO LOSE BIG TAX AMOUNT

LOWELL, May 12.—The expert accountants auditing the books of the city treasurer and city auditor have found that the uncollected taxes for the last two years amount to about $105,000, and it is stated that somewhere in all of these taxes are uncollectible. They are artificial assets and should be disposed of.

ANIMALOGUES

Deer in Zoo Is a Suicide.

NEW YORK, May 12.—Evidently agitated by the fact that Zoo employes were planning to turn her mother, Violet, when they only planned to "manicure her corns," one of the youngest fallow deer in the Bronx Zoological Park, leaped from a high ledge on a picket fence to her death. Though she left no note explaining the cause of her act, witnesses are convinced that it was a case of suicide.

Dog in a Well 13 Days.

HEMPSTEAD, L. I., May 12.—Highland Lad, a $1,000 Scotch terrier belonging to Mrs. Hattie Tappen, has made record for fasting in this vicinity. He has just been found after having fallen down a dry well, where he remained thirteen days without food or water. He fell in on April 29 and pulled. Within a few hours he was as sound as ever.

Dog Saves Boy; Is Killed.

WILKESBARRE, Pa., May 12.—A shepherd dog sacrificed his life to save John Meighan, five years old. The boy was struck by the street when a motorcycle dashed around the corner. The dog pushed toward the sidewalk in time to save the child but the motorcycle killed the dog.

Toy Bird Lures Canary Back.

STAMFORD, Ct., May 12.—A canary bird escaped from the store of Councilman Joseph Mechaley when a cat pulled the cage down, and flew to a tree. Mr. Mechaley put a mechanical canary in the cage, sound it up and concealed himself. The canary entered and was recaptured.

Elephant Tramples Keeper.

BERKELEY, Cal., May 12.—Rajah, one of the largest elephants in the world, escaped from a circus and ran amuck here. Knocking its keeper, Tony Martano, to the ground with its trunk, the elephant trampled him. The man has two fractured ribs and internal injuries. His recovery is doubtful.

NEW ENGLAND'S GREAT CASH HOUSE

Our Friday Three-Hour Sales

WHAT'S IN A NAME? The answer to this question of the "world's incomparable poet" is not an inevitable negative. Often there is much in a name and, when a name carries certain strong characteristics with it or stands for something very distinctive the e is almost everything in the name. In the term "Friday Three-Hour Sales" and what the name implies at this store the purchasing public has found a great deal in the last 9 years, and they still find much in it, if response is a correct index.

Legal Stamps

Remember that Legal Stamps represent a discount of 2½ per cent on your purchases and that we give double stamps every morning. $2.50 in exchange for every filled Legal Stamp Book.

HIBBARD DEMANDS TO KNOW WHY HE WAS REJECTED BY BOARD

Continued from First Page.

Mayor as city collector, a position which pays $5,000 a year. No one so far as is known suggested that Hibbard would not fill that position ably. It was pointed out to the Civil Service Commission that the Mayor while in office had actually saved the city $2,000,000, and that he knew something about finances.

But the commission refused to confirm him and in utter silence allowed him to go down to defeat, without even the satisfaction of knowing why it had done so.

Here Is the Board.

Here are the men who sealed the fate of former Mayor Hibbard.

Charles Warren, chairman of the Civil Service Commission of Dedham, Democrat.

Frank Foxcroft of Cambridge, Republican.

Elmer Curtiss of Hingham, Republican. No one of this trio is a legal resident of Boston. Mr. Warren is a lawyer. He was appointed a member of the commission by Governor Douglas on July 5, 1905.

Mr. Foxcroft was formerly an editorial writer on a Republican newspaper in Boston. He is now connected with a magazine. He received his appointment on July 20, 1905, from Governor Bates.

Elmer L. Curtiss was appointed a member of the commission last Fall by Governor Draper. He took the place of Dismond Pelletier, a Democrat. He was formerly in the Legislature.

The salary of the Civil Service Commissioners is chairman, $1,500 and the other two members $1,200 each. There is a bill before the Legislature now asking that these salaries be increased to the following: Chairman, $2,500; other members, $2,000. A bill before the legislature last year asking that the salary of the chairman be boosted to $3,000 and his assistants to $2,000 was defeated.

Among the comments made upon the rejection of Hibbard are these:

Great Mistake, Says Hart.

Ex-Mayor Thomas N. Hart said:

"I feel as the Quaker felt when he lost his hat. I can't do the subject justice. I think the Civil Service Commission made a great mistake. Mr. Hibbard was confirmed by the United States Senate for postmaster of Boston and reappointed. He was made Mayor of Boston by a majority vote. If he isn't qualified for collector of Boston I don't know of a man who is."

Ex-Mayor Samuel E. Green said:

"His experience as Mayor, to my mind, gifted him to take charge of one of the city departments. Aside from his work as Mayor, his duties as postmaster of Boston gave him experience which would be valuable in the office for which he was nominated. His administration of the Boston postal district, I am informed, was most successful. I am surprised that he was not approved by the Civil Service Board."

Ex-Governor Bates Surprised.

Ex-Governor John L. Bates said: "I am surprised at the rejection, but I don't care to make any further comment."

Ex-Mayor Patrick E. Curtis said:

"I haven't a thing to say except that I am very sorry."

Former Election Commissioner Charles B. Saunders attended the action of the Civil Service Board, declaring:

"Hibbard's appointment is one, which, under the circumstances, no self-respecting Mayor would have made and no self-respecting ex-Mayor would accept. Knowing the members of the civil Service Commission to be intelligent and conscientious officials, I could not see how, for a number of reasons, they could approve the appointment."

'SLAVE' CHARGE SAVES RESOLVE

After a duel by Representative Cogswell of Lynn that employment offices are participating in the "White Slave" traffic, the House of Representatives to-day to considered the defeat of a resolve for an investigation of employment offices by the Bureau of Statistics. The resolve had been defeated previously on the ground that the Bureau of Statistics was too busy to bother with such an investigation.

Friends of the proposed investigation will offer a substitute resolve to-morrow to have the investigation made by a commission of three, appointed by the Governor.

133 ENTOMBED BY EXPLOSION

WHITEHAVEN, Eng., May 12.—One hundred and thirty-seven men were entombed early to-day by an explosion in the Wellington coal mines. After hours of work four men were saved, but the rescuers said there was no hope of reaching the others alive, many alive.

The men brought out declared that their companions were doomed, as the mine was filled with gases. The four were themselves overcome by gas and unconscious when found.

BIG DESTROYER STERRETT HITS WAVE AT NOON

The torpedo boat destroyer Sterrett was launched at noon to-day at the Fore River yards at Quincy. The event was delayed on account of the tide, being scheduled for 11:30 o'clock. At 12:15 o'clock Miss Dorothy Gilfillan, of Baltimore, great-great-great-granddaughter of Admiral Sterrett, for whom the destroyer is named, broke the bottle of champagne across the Sterrett's bow and the slender craft slid gracefully from the ways.

The Sterrett is one of the three largest destroyers in the navy. She is a sister ship of the Perkins, which started on the government trial over the Rockland course to-day.

The launching was witnessed by many navy officials and prominent civilians. Thomas Hood the shipbuilder, a score of members of the Argentine navy were present at the invitation of the builders.

Mayor William T. Shea of Quincy made a brief speech before the launching. Afterward there was luncheon in the mould loft.

Commander Stirling, from whom the destroyer is named, was born in Baltimore in 1760. He was executive officer on the frigate Constitution when she defeated the French ship L'Insurgent. In 1800 he was commander of the Enterprise and later distinguished himself in the war with Tripoli. He died in 1807.

Miss Gilfillan, sponsor of the Sterrett, arrived from Baltimore last night by motor. She is visiting with Mr. and Mrs. Albert Nickerson of Dedham, in her party to-day were Miss Gilfillan, Mr. and Mrs. Nicholas Brady, Mrs. A. W. Dickerson and Miss Ruth Nickerson. Miss Margaret Shonic of New York, Miss Westland Manning and Miss May Gurney of Boston.

MILK DEPOTS CUT DOWN DEATH LIST

JOHN W. CUTLER, HARVARD STAR TO WED MISS FISH

CAPT. CUTLER OF HARVARD.

MARRIED, BUT DIDN'T KNOW IT

Stanislavis Lukaszewicz in the Suffolk County Divorce Court to-day asked that his marriage to Marion Tayela be annulled on the ground of duress. He testified that he did not know that he went through a form of marriage with Miss Tayela, and that he did not know he was being sentenced to jail at a later date because he had married again without being divorced from Miss Tayela.

"It is inconceivable that this man could have been married in a court of justice in this country and not know that he was being married," said Judge Pierce. "It is inconceivable that a judge would allow him to be married without having the nature of the proceedings explained to him.

"It is also inconceivable that Judge Sherman should sentence this man to jail at Dedham for larceny without hardly explaining to him that he was charged with marrying for a second time without first being divorced. You will have to produce more evidence."

FOOTBALL GOAL WON BRIDE FOR HARVARD STAR

A romance of the gridiron involving one of Harvard's greatest athletes and an heiress, the daughter of one of the richest men in the United States, was revealed to-day through the announcement of the engagement of Miss Emily Hamilton Fish, daughter of Hamilton Fish of Washington and New York, and John W. Cutler, a member of the famous Cutler family of Harvard athletes.

The story of the romance reads like fiction. The young couple first met when Miss Fish visited the Stadium to watch her brother, Hamilton Fish, Jr., captain of last year's Harvard eleven, at practice. Mr. Cutler played quarterback on the same team, and the courage he displayed in tearing through the opposing line soon won her admiration.

Through her brother Miss Fish received an introduction to Mr. Cutler. It was a case of love at first sight. Almost every day after that she was at the daily practice of the team. She thought she went out to see her brother, but her eyes almost constantly followed the movements of another common warrior. A combination of the fact that she was watching him, charged his opponents with a vim and determination that swept them before him like chaff.

A Fateful Game.

Time wore on until the day of all days to Harvard men arrived, the day of the annual football game at Yale. Victory meant much to the Harvard team, but it meant more to the quarterback than to any man on the eleven. Miss Fish's consent to become his bride depended on the outcome of the game. If Harvard won he would be the happiest man in the world. If he lost, he would have directed the attack of the Harvard team and won a victory which is the greatest that could be won a bride. But if Harvard lost—Harvard couldn't lose. That was all there was to it.

Cutler played the game of his life at New Haven that day, cognizant of the fact that Miss Fish was watching his every move from the grandstand, and that her destiny was playing for all his stake at the same time. He ran his signals off perfectly, and was in every play while she shouted her approval. Harvard had been slightly hurt and lay stretched upon the ground. Miss Fish let her ground interest a little screen, and might have fallen over it in the greatest rhat and

LODGE IS 60 TO-DAY BUT HE'S PRETTY LIVELY

United States Senator Henry Cabot Lodge is sixty years old to-day.

He was the recipient at Washington of numerous felicitations on his birthday anniversary, on his good health and on his job as Senator. He also received numerous telegrams of congratulation.

He was observed in Washington to be in excellent health. He preserved that instructional demeanor which gave rise to the shrewd remark at the time of the Cook-Peary controversy that neither explorer had discovered the North Pole because that frigid article was already in the Senate in the person of the senior Senator from Massachusetts.

It was noticed, according to dispatches from Washington to-day, that Senator Lodge occasionally signed in the midst of his anniversary congratulations.

One especial sich was thought to be due to the fact that the Massachusetts House only Tuesday had the effrontery to pass a resolution calling for a constitutional convention to provide for popular election of United States Seators.

Those Popular Elections.

Senator Lodge does not approve of popular election of United States Senators, at least in Massachusetts. It might effect a change in the present Senatorial delegation from Massachusetts, which would be foolish, he thinks, so far as the senior Member goes. It might make no change in either event, what's the use?

He had issued orders that the Republican legislators of the Bay State were to kill the resolution. Fifty-one Republicans so far forgot themselves and their duty as to vote with the irrepressible Democrats and favor the resolution. Senator Lodge will attend to the insurgent fifty-one in due time.

Senator Lodge's term expires at the end of this year. He comes before the Massachusetts Senate next January for re-election. He will have served eighteen years in the United States Senate by that time.

Some Telegrams.

If—just supposing if—he is not re-elected, he can console himself in the reflection that he can still be moderator at the annual March meeting of his town of Nahant.

Up to the time of going to press it was not reported that Senator Lodge had been congratulated on his birthday or on anything else by Congressman Eugene N. Foss, the man whom he styled "the Five-Cent Citizen" and whom he read out of the Republican party once upon a time.

Dispatches to-day also record that when he was perusing his congratulatory messages, Senator Lodge smiled right good. The telegrams which caused this particular style of smile were said to read thus:

Dear Senator—Many congratulations and why doesn't the City Service Commission confirm my appointment as Fire Commissioner Can't you touch 'em up a bit? Yours patiently,

JERRY McCARTHY.

"Esteemed Senator—Please accept my heartfelt wishes for your good health and long continuance in office. How about the surveyorship?

"EDWARD C. GRAVES.

"Chairman Republican City Committee of Boston."

"Respected Sir—Believe me, I am proud to extend you my congratulations on your sixtieth birthday. You are ever in my thoughts. So is the surveyorship.

"SENATOR J. HOWELL CROSBY."

CHARITY GETS BIG ESTATE

The will of David Cummings, shoe manufacturer, of Somerville, who died on April 1, was allowed to-day in the East Cambridge Probate Court by Judge McIntyre. The estate is worth more than a half million dollars. Porter E. Cummings of Boston and Joseph W. Spaulding of Melrose are appointed as executors.

The largest private bequest is one of $50,000 to the widow, Olive C. Cummings. To Tufts College 1 sixft $25,000, to be known as the Cummings endowment fund; to Dean Academy at Franklin, $50,000; to the Somerville Home for the Aged, $40,000; $5,000 each is left to the New England Home for Little Wanderers, the Hunt Asylum for Destitute Children in Charlestown, the Perkins Institution for the Blind, the Burnap Home for Aged Women and the Danvers Home for the Aged. To the Bethany Union for Young Women $3,000 is left; to the Topsfield Historical Society, $2,000; to the town of Topsfield for the poor, $4,000, and to the town of Middleton is left $5,000 for the poor.

CHARGES HOME STARVED AGED

NASHUA, N. H., May 12.—Who aged inmates complained that they were hungry they were told the board of mtsers had ordered the food curtailed, of that is one of the causes for my whirawal as a trustee." Thus spoke EMayor Charles H. Burke in explaining his reasons for declining to longer sen as an official of the John M. Hunt Hos.

The announcement that Mr. Eke at a recent meeting of the board it stated in no uncertain language the he was through as trustee caused a decid stir in town. But the charges embod in his statement of explanation have rought a sensation that roused the entirety, and demands for an investigation being freely made.

NEW LIABILITY LAW WANTED

The present employers' liability law was declared unfair to both employer and employe at a meeting of 200 members of the Boston Chamber of Commerce. An immediate change in the law was favored by each of the speakers.

F. A. Flinn said that the law appeared to him more as an opportunity for lawyers, to earn fees than anything else.

Professor W. Z. Ripley declared that the liability laws of other countries are much better than the Massachusets statute..

Robert Luce quoted court records to show that it sometimes takes as long as eighteen months for an injured workingman to get his case disposed of, and that in only about ten cases in a hundred can he make his case good in court.

ROOSEVELT DELIVERS A SCHOLARLY ADDRESS TO SAVANTS OF BERLIN

Continued from First Page.

Intensely proud of her past, with a single effort she wrenched herself free from all hampering ancient ties and with a bound has taken her place among the leading civilized nations of mankind."

Hall Besieged by 20,000.

By a curious coincidence, Mr. Roosevelt spoke in the hall where the Kaiser, on October 19, 1906, rose dramatically after an address by Professor John W. Burgess of Columbia, and cried for three cheers for Theodore Roosevelt.

Long before the time set for the address the university was surrounded by crowds and by the time Mr. Roosevelt arrived fully 20,000 people were on hand. Nearly every one of the 12,000 students of the university was present, although for weeks all Germany has been besieging the authorities for invitations to the lecture, and but a fraction of the applicants could be accommodated in the hall, with its seating capacity of 500.

In the morning Mr. Roosevelt went through a course of preparation for the speech under the direction of Dr. Fraflel, the throat specialist, who announced that there was a marked improvement in Mr. Roosevelt's condition.

As Mr. Roosevelt and the Kaiser appeared together the throngs burst out into a roar.

Throughout the speech Mr. Roosevelt suffered from slight hoarseness, but many times fragments of the address were lost through the windows by the waiting crowds. He spoke English, and said, in part:

Mr. Roosevelt's Address.

I very highly appreciate the chance to address the University of Berlin in the year that closes its first centenary of existence. It is difficult for men in the Old World fully to appreciate the feelings of a man who comes from a nation still in the making, to a country with an immemorial history past; and especially is this the case when that country, with its ancient past, behind it, yet looks with growing confidence into the future, and in the present shows all the abounding vigor of lusty youth. So it is the case with Germany.

Germany is pre-eminently a country in which the world movement of to-day in all of its multitudinous aspects is plainly visible. The life of this university covers the period during which that movement has spread until it is felt throughout every continent.

Amazing Changes in a Century.

A hundred years ago, when this university was founded, the methods of transportation did not differ in the essentials from what they had been among the highly civilized nations of antiquity.

Steam and electricity have given the race dominion over the land and water such as it never had before; and now the conquest of the air is clearly impending. As books preserve thought through time, so the telegraph and the telephone transmit it through the space they annihilate, and therefore minds are swayed now by another without regard to the limitations of space and time which formerly forced each community to work in comparative isolation.

One of the prime changes of which this has always been its tendency to cause the loss of the virile fighting virtues, of the fighting edge. When men get too comfortable and lead too luxurious lives, there is always danger lest the softness eat the manhood into their manliness and lead to the Romans of the days of Augustus but utterly ceased to furnish any cavalry, and were ceasing to furnish enough infantry for the legions and cohorts. When the civilization came to an end, there were no longer citizens in the ranks of the soldiers. The change from the citizen soldiery to the days of mercenaries had been completed.

Now, the exact reverse is the case with us in modern times. Gradually the less all changed, until practically every army is a citizen army, and the mercenary has almost disappeared. Even in civil War of the United States, after some costly and bitter lessons as to the necessity of fighting spirit of the people was shown to better advantage than ever was shown by

The Lessons of the Past.

Hitherto every civilization that has arisen has been to develop only a comparatively few activities; that is, its field of endeavor has been limited in kind as well as in locality. There have, of course, been great movements, but they were precisely only one form of activity; and although usually this set in motion other kinds of activities, such was not always the case.

The great religious movements have been the pre-eminent examples of this type. But they are not the only ones. Such peoples as the Mongols and the Phoenicians, at almost opposite poles of civilization, have represented movements in which one element, military or commercial, so overshadowed all other elements that the movement died out chiefly because it was one-sided.

What is the lesson to us to-day? Are we to go the way of the older civilizations? The immense increase in the area of civilized activity to-day, so that it is nearly coterminous with the world's surface, the immense increase in the multitudinous variety of its activities; the immense increase in the velocity of the world movement—are all these to mean merely that for each will be all the more complete and terrible when it comes?

We cannot be certain that the answer will be in the negative; but of this we can be certain, that we shall not go down into the pit unless we first lose our courage and our honesty.

"Civilization Will Not Fail."

Personally I do not believe that our civilization will fail. I think that on the whole we have grown better and not worse. I think that on the great centuries both more for us than even the great past has held. But, assuredly, if we are to realize in full the splendid future will not come true unless high of heart and strong of mind, by our own mighty deeds we make them come true.

We must afford to develop any one set of qualities, any one set of activities, at the cost of neglecting others, equally necessary, atrophied. Neither the solitary efficiency of the Middle Ages, the extraordinary intellectual ability of the Phoenician, nor the splendid and polished intellect of Greece availed to avert destruction. We, the men of to-day and of the future, need many qualities if we are to do our work well. We need, first of all and most important of all, the qualities which tell for success at the base of individual, of family life, of the fundamental and essential qualities—the homely, every-day, all-important virtues.

If the average man will not work, if he has not in him the will and the power to be a good husband and father; if the average woman is not a good housewife, a good mother of many healthy children, then the State will topple, will go down, no matter what may be its brilliance of artistic development or material achievement.

Need of Religious Spirit.

But these homely virtues are not enough. There must, in addition, be that power of working in common for a common end, which the German people have from end, which the German people have in such signal fashion during the last half century.

Moreover, the things of the spirit are even more important than the things of the body. We can well do without the hard intolerance and arid intellectual barrenness of what was known in the theological systems of the past, but there has never been greater need of a high and fine religious spirit than at the present time.

Unless war is to be abhorred; but woe to the nation that does not make ready to hold its own in time of need against an assault which would harm it and woe thrice over to the nation in which the average man loses the fighting edge, loses the power to serve as a soldier if the day of need should arise.

It is no impossible dream to build up a civilization in which morality, ethical development, and a true feeling of brotherhood shall all alike be divorced from false sentimentality, and from the ruinous and unmanly practices which, exploiting weakness often accompany professions of sentimental humanitarianism; in which the growth of high material development in the things of the body will be achieved without sacrifice of the things of the spirit; in which the cultivation of the virile fighting virtues shall be compatible with peace and justice without loss of those qualities without which peace or justice shall avail any race; in which the fullest development of scientific research, the great distinguishing feature of the nineteenth century, shall get not merely a belief that intellect can ever take the place of character—for here the standard set by the average man of the individual; it is character that is the one vital possession.

Sees Great Future for Germany.

Finally, this world movement of civilization, this movement which is now felt throbbing in every corner of the globe, should be a movement for the world to go together while yet leaving unimpaired that love of country in the individual citizen which is the prime source of the world's progress is essential to the world's well-being. You, my friends, are Germans, and to you, belong to different nations. Under modern conditions your books we read, the news sent by telegraph to our newspapers, the strangers we meet, half of the things we hear and do each day, all tend to bring us into touch with other nations.

Each people can do justice to itself only by doing justice to others; but every people can do its part in the world movement for all only if it first does its duty within its own household.

The good citizen must be a good citizen of his own country before he can be of any use as a citizen of the world at large.

I wish you well. I believe in you and in your future. I admire and respect the extraordinary greatness and variety of your achievements in many and widely different fields; and my admiration and regard for all that you have done I am so profound a believer in the institutions and the people of my own land.

HEALTH TALKS TO ALL PUPILS

Boston's school children were told today what relation cleanliness, fresh air, sunshine, food, drink, exercise and rest have with health and happiness. It is "Health Day" in the public schools.

The teachers in the first grades of the grammar schools lecture on how children should stand and sit, how they should eat and the advantages of cleanliness.

The same subjects are taken up with the higher grades, demonstrations being given by nurses. In the seventh and eighth grades special speakers talk on hygiene, taking up personal habits and characters, the use of alcohol, tobacco and cigarettes and the spread and curability of tuberculosis.

In the high schools these topics are taken up even with more detail, the relationship of alcohol and nutrition and good health being emphasized. The special speakers and charts are provided by Dr. Thomas F. Harrington.

WILL DODGE COMET IN CYCLONE CELLAR

COUNCIL BLUFFS, Ia., May 12.—John Marlow, a farmer near this city, is so convinced that Halley's comet will spread death and destruction on the earth that he is digging a cave in which he and his family will live during the time that the earth is passing through the tail of the comet. The centre of the cave is an air-tight door by which he expects to keep out the poisonous atmosphere. In addition to the family he will have two horses, two cows, a dog, a cat and a number of chickens into the cave.

SENATOR TALKS WAR TO EPWORTH LEAGUE

WASHINGTON, May 12.—Senator Bristow of Kansas told the audience at the Sunday meeting of the District of Columbia Epworth League Convention, in Hamline Methodist Church, that there are serious possibilities of a great conflict between America and the Orient, and that just now no one could foretell whether the future will see a peaceful colloquation between the peoples on either side of the Pacific.

THE EVENING AMERICAN guarantees to advertisers the largest circulation by far of any daily newspaper in Boston and over 200,000 more than the next highest evening paper, and over 75,000 more than all the other Boston evening papers combined. Circulation books open to all.

HALL'S HOME IS SOLD.

SOUTHBRIDGE, May 12.—The house, barn and land of John A. Hall, ex-treasurer of the Southbridge Savings Bank, was sold at auction to C. F. Dakin for $5,500. The house is one of the finest in the town. The money goes to the Southbridge Savings Bank.

WINS FREEDOM BY HUSBAND'S CONFESSION

A confession written by Francis W. Lee in which he admitted his friendship for other women, and evidence that he repeated his confession at a conference with his attorney, secured for Married Annex Lee a divorce in the Suffolk Superior Court.

Mrs. Lee appeared in court stylishly dressed in a dark-colored tailor-made suit and a large hat.

She was accompanied by her brother, William Rand, and Attorney Brandeis, who took the stand first and identified a letter written by Lee to Rand, sent by him.

He stated that as soon as he had read it he started for Boston and took his sister to Lee.

Some time later in New York Mr. Rand had a conversation with Mr. Lee, asking for an appointment. At the appointed hour they met and discussed over the contents of the letter.

At this conference Mr. Rand stated Mr. Lee reiterated the truth of the contents of the letter and said that there was not anything his wife wanted him to do. He offered to settle $5,000 on her through his brother-in-law, but the latter refused to agree to this and told Mr. Lee that she would retain a lawyer to act for him.

Mr. Rand testified that he asked who the women mentioned in the letter were and Lee replied: "This Mr. Lee refused to answer, as they were friends of his wife and he did not like to discuss their personal acquaintances with strangers.

LOST GIRL IS FOUND HIDING IN AN ATTIC

RANGERS, May 12.—Minnie E. Crawford, the twenty-year-old daughter of Mr. and Mrs. William Crawford, who has been missing since last Tuesday, was found today alive in an attic closet in the Crawford house. The girl has been suffering from melancholia for the last six months.

Last Tuesday, when her father started to the house for his restaurant, he said to her:

"Minnie, I'd like to have you come to the restaurant to-day."

When the attic door was opened to-day by Police Chief Joseph Morrill and Mr. Crawford, the girl said feebly:

"Father, you won't want me to go to the restaurant now, will you?"

This is not regarded as any indication that the girl feared to go to the restaurant, for she had been there often. But it indicates that her mind has been practically a blank since she disappeared. She was given into the care of doctors, who said that she would recover with food and rest.

So far as known the girl was without food during the three days and two nights she was hidden. She kept very quiet, not making a sound to arouse the family. Nearly 100 men have been scouring the entire district since yesterday in search of her by automobile, horseback and afoot.

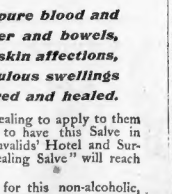
DOUBLE LEGAL STAMPS MORNINGS

The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of ingredients composing it is printed there in plain English. More than forty years of experience has proven its superior worth as a blood-purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone root and Mandrake root, Bloodroot and Black Cherrybark are extracted and preserved by the use of chemically pure, triple-refined glycerine.



Send to Dr. R. V. Pierce at Buffalo, N. Y., for *free* booklet which quotes extracts from well-recognized medical authorities such as Drs. Bartholow, King, Scudder, Coe, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in all bilious or liver complaints and in all "wasting diseases" where there is loss of flesh and gradual running down of the strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and through them, the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed.

In treating old running sores, or ulcers, it is well to insure their healing to apply to them Dr. Pierce's All-Healing Salve. If your druggist don't happen to have this Salve in stock, send fifty cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post.

You can't afford to accept a *secret* nostrum as a substitute for this non-alcoholic, medicine OF KNOWN COMPOSITION, not even though the urgent dealer may thereby make a little bigger profit. Though he offers the substitute for a less price you can't afford to experiment with your health. Go where they give you what you ask for *without argument.*

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

Lazy Liver

At this time of the year the system has clogged up, the pores are closed, the blood is thin and the circulation is poor. You have no energy for business or pleasure. You suffer from headaches and sleeplessness. Your skin is yellow and your tongue is coated. Food does little good. All these indicate that your liver is not doing its work and the bile is not being carried off. You need something to awaken the liver.

Warner's Safe Cure

is an absolutely safe and permanent remedy for all diseases of the liver. It corrects the functional trouble by increasing the flow of bile into the bowels to a healthy standard and keeping it so. It aids in removing the waste material that obstructs the circulation of the liver, and by its tonic and purifying properties brings to a condition of perfect harmony all the organs of the body.

It is made from the fresh juices of plants and medicinal roots, gathered at the proper season in various quarters of the globe. Men skilled in botany and chemistry compound it. Put up in 50c and $1.00 sizes and sold by druggists everywhere.

In diseases of the liver the bowels are usually constipated, on account of the flow of bile being lessened. You should take Warners Safe Pills, purely vegetable, absolutely free from injurious substances, a perfect laxative. They do not gripe or leave any bad after effects. 25 cents a box.

To convince anyone who suffers from diseases of the liver, kidneys, bladder and blood that WARNER'S SAFE CURE will absolutely cure, a sample bottle and also a sample box of Warner's Safe Pills will be sent FREE OF CHARGE, postpaid, to any one who will write WARNER'S SAFE CURE CO., Rochester, N. Y. and mention having seen this liberal offer in the Boston Daily American.

CLERGYMAN'S VIEW OF OATH TAKEN BY KING

Text of King's Oath Odious to Catholics

Here is part of the declaration in the oath taken by a new King of England at his coronation to which objection is made:

I do solemnly and sincerely, in the presence of God, profess, testify and declare that I do believe that in the sacrament of the Lord's supper there is not any transubstantiation of the elements of bread and of wine into the body and blood of Christ, at or after consecration thereof, by any person; and that the invocation or adoration of the Virgin Mary or any other saint, and the sacrifice of the mass as now used in the Church of Rome, are superstitious and idolatrous; and I do solemnly, in the presence of God, profess, testify and declare that I do make this declaration, and every part thereof, in plain ordinary sense of words as commonly understood by English Protestants, without any evasion, equivocation or mental reservation whatever, and without any dispensation already granted me for this purpose by the Pope or any other authority or person whatsoever.

By REV. ALBERT E. GEORGE.

The proposal to do away with a part of the oath taken by the King of England, reflecting upon our Roman Catholic brethren, is wise, timely and, above all, truly Christian.

The times which occasioned the oath have gone, thank God, never to return. The British nation has to-day a multitude of subjects loyal to England's future to whom the oath is offensive. It is offensive indeed to all lovers of religious liberty to hear this part of the oath every time a king or queen is crowned in England.

All of us here in America of any progressive Christian training have buried our ecclesiastical hatchets and nothing in the government here can be made offensive to any Christian body.

England is recovering slowly from many ecclesiastical traditions. It now allows privileges to Roman Catholics which formerly were denied them. It has already extended privileges to all its subjects, no matter what their belief, and this has been done within recent years, comparatively speaking.

But there is one thing, an antiquated thing, existing with the English code of the past, and it is the offensive part of this oath. A million (and a million more) loyal subjects of different religious conditions should not tolerate such an oath, and we believe the generality of English people feel this. It is offensive to them as a Christian, narrow, bigoted and an inheritance from the dark scenes which have been enjoyed and forgiven in these days.

We are living in different days now. Our religious conclusions do not witness against us as they did some years ago, and if they apparently did when this oath was first put forth.

We are looking toward the future, the great future, when religious liberty will be the crowning glory of any nation, and where none of these barnacles must be allowed to cling to the great ship of state.

JEWEL THEFT IN BROADWAY HOTEL

NEW YORK, May 12.—A $2,000 jewel robbery in the Hotel Breslin, Broadway and Twenty-ninth street, was revealed today when Detective Wilbur of the central office arrested a man and a woman employed in the hotel. The prisoners, belonged to Frank Ross, Frank Lesh, twenty-six years old, and Lizzie Tiernan were taken to the police headquarters and locked up on the technical charge of being suspicious persons, although the records indicate that the Breslin was the scene of the robbery. It was sold at the hotel that they knew nothing of any theft of jewels.

CHILD-WIDOW WINS BIG ESTATE

NEW YORK, May 12.—Lena Fanny Stark Pinellie, the child-wife of Jacob Pinellie, a wealthy wall paper broker, who died last August, was to-day declared his lawful widow and as such entitled to his estate. In this decree culminates the romance and tragedy which came into the life of eleven-year-old Lena Stark, who accepted a husband forty years her senior before she donned long skirts. She was then compelled to fight in the courts for years to establish her marital status. The Pinellie estate has been estimated to be worth $100,000 to $1,000,000, but not even the young widow has been able to get exact figures on the fortune she will possess.

IRISH REMOVE HEROES' BODIES FROM PRISON

DUBLIN, May 11.—One of the most remarkable demonstrations held in Ireland during recent years took place to-day in the town of Nenagh, County Tipperary, as the remains of William and Daniel McCormack were transferred from their grave in the prison yard to a Catholic cemetery.

Both young men were public hangmen in Nenagh jail in 1857 for a murder of which they were afterwards found to be entirely innocent. Justice Keogh, who presided at the trial, and who was notorious for his bitter political partisanship, shocked the country by his conduct on the bench, where he acted as a violent prosecutor, killed his own valet in a German hotel some years afterwards and took his own life an instant later.

The exhumation of the bodies of the McCormack brothers, which took place to-day, was made possible by the transformation of the jail, in which they were hanged and buried, into a school in charge of a community of Catholic nuns. Other government prisons in Ireland have undergone a similar happy change, a striking tribute to the phenomenal submissiveness of Ireland.

The fateful procession of to-day was a remarkable demonstration. Headed by the clergy, some 10,000 persons, 600 jaunting cars and 20 bands of music, escorted the coffins from the jail, for reinterment in the family grave at Loughmore.

The crime for which the McCormacks were hanged was the murder of an estate steward named Ellis, who became the object of hatred through ordering a number of evictions. He was shot from behind a bridge October 22, 1857. A man named Michael Gleeson, one of the evicted tenants, whose son was present at the ceremony to-day, later confessed to the crime on his deathbed.

The reinterment was made the occasion of a holiday in the district. All the shops were shut, blinds were drawn, and every one was dressed in black or wore crape armlets tied with green ribbon. Many old persons who remembered the boys nobbed afoot as the hearses passed.

WEALTHY HURT 1915 MOVEMENT, SAYS THE MAYOR

Mayor Fitzgerald, presiding at a conference of the improvement society's group of the Boston-1915 movement, criticized the wealthy citizens owning property who, he said, refuse to have curbing, oppose street and sidewalk improvements.

Mr. Fitzgerald recited a recent case in point, where two-penny shutters opposed new sidewalks which were much desired by others living on the street, because they would have to pay half the cost.

"There are within 200 yards of this meeting," said the Mayor, "buildings owned by wealthy citizens, or by trustees, men who hold their heads high and think well of themselves, and who preach civic betterment, in front of which are old brick sidewalks entirely out of keeping with our present-day city. Where most other cities make the abutters pay all of the cost, Boston says 50 per cent. of all street improvements, and yet there are thousands of property owners who are not willing to pay the small pittance necessary so that we can have streets and sidewalks that will be a credit to the city.

"The mayor listed suggestions of various sorts as to minor improvements in various parts of the city, and to most of them he promised measures of relief. Among the things which he thought could be accomplished was the purchase of a playground for Park square, so that children would not have to cross the square, which is rapidly becoming the automobile centre of New England, and a danger spot for pedestrians."

ROBBERS BEAT VICTIM.

Two negro highwaymen held up Willard Tremble at Raymond and Athol streets, Brighton, late last night. They stole his silver watch, beat Tremble unmercifully and then made their escape. Tremble helped himself to his home at No. 7 Prescott place. Tremble said the robbers were both young men.

T. Thorne Baker, and Machine Sending Photographs by Wire

PHOTOGRAPHS SENT BY WIRE TO AMERICAN

Photographs will be sent over the wire from New York to Boston on Saturday for the first time.

The tests will be made at the BOSTON AMERICAN office in Summer street, photographs being transmitted from the office of the New York American. Likenesses of prominent Bostonians will be flashed from New York to the office here, while the originals look on. The same process will be worked from Boston to New York.

At the BOSTON AMERICAN office a committee of public men and scientists will watch the operation. Governor Draper and Mayor Fitzgerald will be the guests of honor at the experiment.

Other guests will be President Maclaurin of the Massachusetts Institute of Technology and President Hamilton of Tufts College.

The process of sending a photograph 200 miles requires just four minutes. The inventor is T. Thorne Baker, an electrical expert of London.

The wire photography machine exhibited by Mr. Baker resembles a phonograph in aspects, the phonograph, with its cylinder adjustment. There are two principal parts for sending and receiving, exactly alike so as to appreciate. The process by which the photographs are sent closely follows the idea of the transmission of the telegraph.

A picture is made to be received in about the usual way. From this print a wet plate negative is taken and this is printed upon a film of highly sensitized tin foil with a series of fine lines running across instead of crossing as is the case with ordinary line half-tones.

The tin foil film is then wrapped around the phonograph-like cylinder or drum of the sending machine. Adjusted above the cylinder is a stylus with a fine point. An electric current is sent through the stylus, and as the cylinder revolves the stylus records the lines upon the film. In turn the current waves thus produced are sent over the line to the receiving machine.

Upon the receiving machine there is a similar stylus, poised above a cylinder upon which is wrapped a sheet of paper which has been treated with a chemical substance so that it records the faintest movement of the stylus.

STENOGRAPHER IS ACCUSED IN WARREN CASE

PROVIDENCE, R. I., May 12.—Numerous witnesses from Boston and Maine are still to be heard in the Warren divorce case, which was resumed to-day in the Superior Court here. Fred Nicholson testified that he saw a "blonde lady" with Warren in a Boston hotel elevator.

She was described as Miss Edythe I. Read, Warren's stenographer. Another couple accompanied the Warrens when they left and went down Washington street, he said.

Nicholson, following objection to diclosures of names of the other couples, confidentially gave them to the court and attorneys.

Mrs. Bertha Kyle, waitress at the Beaconfield House, Pawtucket, who had made an affidavit that Warren and Miss Read visited that hotel, testified she was entirely mistaken and she swore she never served the couple in a room and that her affidavit was all wrong. Cross-examined, Mrs. Kyle was asked to describe the blonde lady and she denied that she had ever seen the real Miss Read. When asked whether she had ever seen any blonde women everywhere than in Mr. Warren's office, she said that she had seen some of them on the street.

Walter Butler testified he knew Warren for fifteen years. He was with him on occasion in Portland, Me., on business. He said Warren left him at night and said he was going to leave the city.

"The next day I saw him on the car," said the witness. "He sort of crouched down as if he didn't want to see me."

Mrs. Butler was then called.

"Did you see him with anyone?"

"There was some women on the car with him."

The witness could not swear that he could identify Miss Read as one of the women whom he saw on the car.

PALLADINO IS REAL ANGRY AT FRAUD CHARGE

NEW YORK, May 12.—Mme. Eusapia Palladino, the Italian "medium," said today that she is eager to prove to newspaper men that her weird performances are not produced by trickery. She is angered by the declaration of a number of scientists and educators that many of the strangest things she does are accomplished by expert use of her hands and feet.

"I am ready to give a demonstration," she said, "which will prove false every alleged proof set forth by Professor Dickinson Miller of the chair of philosophy of Columbia University as to my employing trickery and fraud."

Mme. Palladino charged that the committee of investigators acted "like a parcel of jumping Jacks."

The committee which conducted this last investigation into Mme. Palladino's performance was composed of several eminent lors and scientists from Columbia, Princeton and Johns Hopkin's.

The report to which Palladino objects so vigorously charges her with accomplishing many of her strange appearing manifestations by means of her hands and feet. She is said to move the hair on her head by means of her own breath. The table movements are declared to be made by madame's feet.

BAIT SOLD AS FOOD TO WEST INDIANS

MIDDLEBORO, May 12.—Herring which heretofore have been sold to Boston and Gloucester fishermen for bait will hereafter form a part of the food stuffs for the West Indies. The herring are salted and packed in large casks in shipment there.

CABINET EARS SET TINGLING

WASHINGTON, May 12.—Secretary of the Treasury MacVeagh and Secretary of War Dickinson attended to-day's session of the Ballinger-Pinchot investigating committee, and from their seats beside Mrs. Ballinger and Mrs. Wickersham heard their fellow-Cabinet officer grilled in cross-examination by Attorney Brandeis.

It is not likely that the committee will get the Lawler memorandum, which Mr. Brandeis has asked for. This is the paper which counsel for Glavis contends was prepared by the Interior Department and submitted to the President, and upon which he acted in vindicating Ballinger rather than on the mass of documents which were submitted to him. Mr. Lawler has advised Chairman Nelson that the memorandum is not in his possession, but the President has it. The committee has decided not to request the President to transmit it, and the only way it can now be produced is for the House to adopt a resolution calling for it.

CONGRESS TO PASS POSTAL SAVINGS BILL

WASHINGTON, May 12.—When the Republican members of the House Committee on Postoffices and Post Roads have agreed on a postal savings bank bill to be substituted for the Senate bill, the Democrats on the committee will be called in and the measure submitted to them for inspection. While the House Republicans have not yet come to an agreement on all the provisions, it may be stated on the authority of the Chairman Weeks that a postal savings bank bill will probably be the President will be passed at this session. The feature which is causing the trouble among the majority is the deposits. Some wish the money deposited in the large national banks, while others insist that it be kept at home for circulation.

PICKING LEADERS OF CHAMBER'S ASSEMBLY

The nominating committee of the Boston Chamber of Commerce Assembly, just organized, is preparing a list of candidates for offices to be considered at the next meeting. The assembly starts with a membership of 140. Its purpose as explained by Hugh Bancroft is to provide opportunity for freer and more informal discussion of civic and industrial problems than is allowed in the rush of business at the regular meetings of the Chamber of Commerce. It will be in the nature of a forum.

PILGRIM PUBLICITY TO MAKE CHANGES

The directors of the Pilgrim Publicity Association will hold a special meeting in the Chamber of Commerce Tuesday at 11 o'clock to consider recommendations for changes in the proposed revision of the constitution. The annual business meeting of the association will be held at the Boston City Club May 25. Dinner will be served at 6:30 o'clock.

DRAPER FIRE DUE TO A LAW VIOLATION

An electric plate warmer that had been illegally installed without notification to the wire department and had not been inspected and passed upon, was the cause of the fire that destroyed Governor Draper's mansion at No. 150 Beacon street, October 7, 1909, with a loss of $150,000, according to a report just sated by Commissioner of Wires James E. Cole.

LAST SURVIVOR OF MERRIMAC DIES

PORTSMOUTH, Va., May 12.—Captain Charles Schoonover, a retired chief engineer on the Confederate ironclad Merrimac and sole survivor of the historic duel she fought with the Monitor in Hampton Roads, died here, aged seventy-four.

PUPILS' MUSTER ON THE FOURTH

A plan has been advocated by Edwin S. Small, chairman of the Melrose School Board, for a safe and sane Fourth for that city which is attracting interest in other municipalities. His plan is to have a ball in each school building and a school yard and ample playgrounds; a physician to examine each pupil and to prescribe the necessary amount of physical training and exercise; a physical director for each school to direct the drills, and on holidays public exhibitions at each school; the climax of the year's training coming at a general muster of the school children on the Fourth of July.

This final muster would have every school in competition in athletic events, prescribed by a director, and the children would be so drilled during the year that no bad effects would result.

HARVARD GRADUATE TALKS TO YALE MEN

An address by Robert L. O'Brien, a Harvard graduate, the one man in a room who was not a Yale graduate, was the unique feature of the meeting and banquet of the Yale Club of Boston at Louis cafe. Mr. O'Brien's subject was Yale men in public life. The Yale men gave him an enthusiastic welcome.

The election of officers, which preceded the talk by Mr. O'Brien, resulted in the choosing of Sherman L. Whipple, class of 1901, a Boston attorney, as president; George L. Hunt'ess, the Hon. Marcus Morton, Garrard Comly and Dr. Fred T. Murphy as vice-presidents; Charles Stetson, secretary and treasurer and Willard B. Luther, assistant secretary.

POWER BOAT TO CROSS CONTINENT

A long cruise is planned for the sixty-five foot power yacht Ogarita, owned by E. V. Benjamin of New Orleans, who is having the yacht overhauled by her builders, Murray & Tregurtha of South Boston. The Ogarita will be taken to her home port by way of the St. Lawrence river and the Mississippi river. In contrast to this trip will be the passage across the continent of the fifty-sixth foot power cruiser Honey Boy on freight cars to Seattle.

MILLMORE TO LEAD SOMERVILLE ELEVEN

Norville Millmore, centre of the Somerville High football team last fall, has been elected captain of the team for next season. Charley Dickerman was elected to the position, but as he was found to be ineligible a new captain was chosen.

DRIVING CLUB GETS LEASE OF READVILLE

If the interest that was shown at the special meeting of the directors of the gentlemen's Driving Club of Boston, held at President A. S. Bigelow's office, is any criterion, the club will be much in evidence this season. Those present were President Bigelow, A. H. Parker, Frank G. Hall, Henry Jackson, A. C. Haley, Arnold Lawson, T. L. Quimby, Charles Sanders, Louis Rohesou, Justin Edwards.

A. J. Welch, the owner of the Readville track property, was also present, and satisfactory terms were arranged with him for the use of the track the coming season by the driving club.

It was also voted that the annual dues for members residing in New England in the future shall be $20, and the dues for members outside of New England $10.

The real hustlers of the club believe this radical reduction in the cost of membership will result in getting a lot of new blood into the club and that this will enable them to bring enough horses to the track to ensure good racing at the club's matinees.

It is also the purpose of the committee in charge of the club house to make the restaurant and other entertainment features sufficiently up to date to attract many of the old-time followers of the harness horses who now are devotees of the automobile.

The present intention of the committee in charge is to open the club house the week of the Fastachpon ride, but it is not probable that the club's matinees will be so started before the first week in June.

Following is the list of the committees for the coming year:

Executive committee, Benjamin Pope, A. C. Haley, Frank G. Hall, T. L. Quimby, Arnold Lawson, new member to succeed A. C. Haley, W. D. Hunt, Justin Edwards.

LOSE IN STUDIES; DROPPED OFF CREW

Volkmann's prospects for a championship crew for the coming regatta have been somewhat shattered. It is announced that two of the star members of the four are ineligible because of poor scholarship standing. The men who have fallen under the faculty ban are Nelson Curtis, No. 3, and Frank Storms, at bow.

PAL MOORE CALLS OFF COAST MATCH

LOS ANGELES, May 12.—Pal Moore of Conley at Vernon Jane 4 has telegraphed New York, who was to have fought Frank Conley off the match. Moore says he wants to fight Jem Driscoll in New York before coming West. Danny Webster may be substituted for Moore.

MEXICAN CHAMP BEATEN.

Jack Perelli of Boston defeated Leslie, the champion of Mexico, in last night's wrestling match at the Columbia Theatre. The contest was the hottest and swiftest of the season at this house, Perelli winning in two straight falls in thirteen minutes and five minutes.

JOHNSON ADDS BASEBALL TO HIS TRAINING

By H. M. WALKER.

SAN FRANCISCO, May 12.—Not to condone by Jim Jeffries, Jack Johnson has added baseball to his training. The sight of the giant negro parading out to a recent lot adjoining the Sout Rock Gymnasium this morning carrying a huge bat provided a novel attraction for the sightseers on the beach, and during the hour and a half that the champion batted 'em out to his willone of trainers the "standing room" was more than a cause of.

"I never played baseball," said Jack as he left the field, "but I believe it is just the kind of exercise I need in my preliminary work and I shall probably stick for a week or two anyhow."

Goes Twelve Miles on Road.

Though Jack was given numerous invitations to don the gloves and get out in the field he declined with thanks. In addition to the diamond work, Johnson did a twelve-mile marathon along the beach. That constituted his day's work. The road program will be followed until Saturday when he will probably do some sparring for the benefit of Sunday crowds that are expected to see his workouts.

Johnson this morning gave a very good line on the training program he will put here to between the first of a week and eight times. Public sparring exhibitions will be given three days in the week, and an hour's gymnasium work will be a daily feature. He will begin each day's work with a run along the beach and wind it up with a spin in his automobile.

Wouldn't Discuss White.

Johnson to-day refused to discuss a story originating in Rowardennan to the effect that Charley White, the referee arbitrator, might be suggested as a compromise candidate should the referee question again come up on May 17.

"Everybody knows where I stand," said he. "I favor Jack Welsh for the job and unless some good reason why he should not serve is advanced I am going to stick to my opinion. Of course, if Jeffries and I cannot agree upon a man it is up to the promoters to make the choice, and it is natural to suppose they will name a man who has not figured in the controversy."

OLDFIELD BREAKS ALL AUTO RECORDS

CHEYENNE, Wyo., May 12.—With the course guarded by 2000 United States soldiers from Fort Russell, Barney Oldfield, driving a 200-horsepower Benz, broke the world's record for a half-mile and one mile over the circular speedway at Frontier Park. Oldfield covered the half-mile in 27 seconds flat and the mile in 56 seconds flat. The previous records were held by Oldfield, made with the same car at the Los Angeles Motordrome a month ago. The previous record for a half-mile was 37.76 and for the mile 56.22.

PATHFINDER CAR ENTERS ILLINOIS

ROCK ISLAND, Ill., May 12.—Illinois, the thirteenth State on the 1910 Glidden tour route, was entered this afternoon by the pathfinding car, which will end its journey from Portland in Chicago to-morrow. O. H. Lewis, scout of the American Automobile Association, and driver of the pathfinding trip were the guests of the Davenport Auto Club at luncheon this noon.

They have been escorted 200 miles by a pilot car from the local club, and will be accompanied to Chicago by other local officials. The vanguard of the Chicago welcoming party met them here by motor and other motorists are waiting for it between here and Dixon.

JEFF, CLOSE TO WEIGHT, CUTS MOUNTAIN HIKES TO BOX WITH TRAINERS

By W. W. NAUGHTON.

JEFFRIES'S TRAINING CAMP, ROWARDENSAN, Cal., May 12.—Camp Jeffries is a funny place. When the big fellow is depressed through any cause, or is working poorly, the men around him scowl in sympathy and have not a word to throw to a dog. When Jeff is feeling fine and goes at his work like a frisky kitten at a rubber ball, one glorious smile pervades the nook in the redwoods.

Jeffries himself affirms that from this time forward, so far as observations and work are concerned, it will be a case of everything being lovely and "the goose hanging high." The reason—much broad work has brought Jim to within a few pounds of fighting weight, and has placed his lungs in capital shape.

So far as the heavy labors of training are concerned, he has crossed the ridge and the rest will be comparatively easy. During the rest of the time he will curtail his journeys across the mountains and will devote more time to sparring with the object of becoming quicker of hand and foot.

Jeff in Great Form.

As Jeff stood under his shower after an hour of brisk and varied exercise, I had an opportunity of noting the effects produced upon his frame and limbs by long and faithful training. He certainly has achieved wonders. His muscles stand out on the biceps, forearm and waist has entirely disappeared, and I cannot remember when his legs were more sinewy looking and more suggestive of endurance. While they were rubbing him, Jim prattled away:

"It's kind of funny the way I am being held up as a sure fellow," said he. "I don't think I am anything of the kind. I am going to train hard and fast, but I am not given much to talking, and for that matter I am of all things reserved to a certain extent, but I do not like the imputation that I don't want the public to know the truth about my condition. The fact is that those who question could make proper allowances and don't stop to think.

"No man outside of a pugilist or a trainer can begin to realize what I have been through to reach my present stage. I have worked conscientiously, and it has been no picnic. Whenever I went into training before my first aim was to take off surplus weight, mainly by hearty road work, and the strain always disarranged my stomach.

Short-Arm Fighting.

"This time has been no exception and what with having my stomach out of order and suffering from the stiffness and setbacks which go with early training, I guess I have not been the pleasantest fellow in the world to talk with. But I do not think I have been any worse than any other man would have been under similar circumstances."

Jeffries's work was of an impressive kind and the members of his staff were well pleased in consequence. He began his exercises at 10 o'clock, starting out with the skipping rope and keeping up that form of exercise for fifteen minutes without cessation. After that he shadowboxed for eight full minutes, covering ground rapidly. Then he sparred three rounds each with Bob Armstrong and Joe Choynski.

With the partner last named Jeff indulged lots of speed and energy, lots in slower work. He devoted his efforts mainly to blocking leads and warding off counters. He seemed satisfied with being able to work close enough to land smashes if he cared to, the inference being that he hopes to engage in much short-arm fighting when he strips to battle for the championship.

CHARLIE WHITE NOW LOOMS UP LIKELY TO REFEREE FIGHT

JEFFRIES'S TRAINING CAMP, Rowardennan, Cal., May 12.—Charlie White, that he is the winner already.

the veteran New York referee, looms up as a more prominent factor in the Jeffries-Johnson controversy over an arbitrator for the big battle of June 4. His name has been persistently mentioned since Tex Rickard's visit here earlier in the week, and it is common gossip around camp that the Nevada promoter suggested him as a compromise candidate.

While Jeffries will not discuss the question, he insists that Eddie Smith is the only man brought into the discussion of a possible choice he will agree upon as the third man in the ring.

This means that if Smith is not chosen as Eastern man will get the job. According to the reports here, Jeffries left no doubt in the mind of Rickard but that he meant just what he said, and it was this firm stand on the part of the former champion that caused Tex to suggest White.

Jeffries first choice is Ira. White will likewise certainly be selected.

Johnson, it is believed, will hang out just as long as Jeffries does for Smith, and the lack of choosing between the gentlemen will rest in Rickard and Gleason, promoters of the fight.

Rickard suggested the name of White during his stay at Rowardennan, and it is considered by excellent authority that he is his choice will fail. Both Rickard and Gleason have declared right along that they favored the Californian for the job.

If all the possible names now are turned down by the fighters, however, there will be but one thing to do. One thing is certain, and that is, that the referee must be a man of national reputation in order to sit in with the high class attraction.

EBBETTS AT ODDS WITH BILL DAHLEN

PITTSBURG, Pa., May 12.—President Charles Ebbetts of the Brooklyn National League team to-day announced he had odds with the manager of his team, William Dahlen. The latter, in the absence of President Ebbetts, made a protest against the decision of Umpire Klem in the game with the Pirates scored without touching third base. Ebbetts to-day advised National League headquarters of the withdrawal of the protest.

BOXING NEWS BRIEFLY TOLD

Can Porky Flynn stow a champion? When he meets Stanley Ketchell next Tuesday night at the Armory he will be up against his hardest test. Of course Ketchell will be the big favorite which is not surprising.

That agitation on the coast against the big fights certainly amounts to something after all, and there are doubts about the Thomas-Ryan match taking place Saturday at Frisco.

Billy McCarney, a Quincy quarter prospector, may have his title to the East for nothing, as he is clustering for a match between Sam Langford and Stanley Ketchell over at 10 o'clock, starting out with the rope skipping rope and keeping up that form of exercise for fifteen minutes without cessation. After that he shadowboxed for eight full minutes, covering ground rapidly. Then he sparred three rounds each with Bob Armstrong and Joe Choynski.

He seemed satisfied with being able to work close enough to land smashes if he cared to, the inference being that he hopes to engage in much short-arm fighting when he strips to battle for the championship.

The Truth About Business Conditions in Boston

THE Spring Season has been, to say the least, decidedly disappointing, in nearly every line of trade, and throughout the entire country.

This is not snap judgment, but the result of a very searching investigation, not only in Boston, but in New York and Philadelphia, where our other stores are located, and in other great cities throughout the land. On every side is the most convincing evidence that the big boom expected this Spring has not arrived.

We optimistically assembled the Greatest Spring stock of our history. To-day we are overloaded.

Of course, we could quietly wait, and carry over this surplus into next season. There would be a very ready and a very appreciative market for it then. George Clothes, built by custom tailors during their dull season, are always a full year ahead of Ready-mades in style, cut, color and pattern.

But such an action would be in direct opposition to our firmly established policy.

So we have taken the only possible step to FORCE business at once—by making our

JULY REDUCTIONS NOW IN EFFECT THIS MORNING

Think a moment. Understand us fully. The reductions that we usually make in July—our regular month of clearance, when stocks and assortments are depleted—go into effect RIGHT NOW—on our entire, great, wonderful stocks, in all their early season freshness, richness and diversity.

In short, we are presenting clothes so desirably fresh and fine in character, at prices so irresistibly attractive, that in deference to your own good common sense, you simply cannot pass up the opportunity.

Men of all sizes can be fitted in our vast stock, whether short, stout, lean or of extra proportion. Included in this sale are Sack Suits and Coats and Trousers, Quarter, Half and Full Lined Walking, Prince Albert, Dress and Tuxedo Suits, Lightweight Overcoats, Cravenettes, etc. Various models costructed on lines to please both the conservative and extreme dresser.

AUTO MEN AT SMOKER HEAR TRADE TOPICS

By J. C. KERRISON.

The smoker at the rooms of the Bay State Automobile Association last evening proved most enjoyable in every way. It brought to the club rooms many of the old-timers who for the past few months have been neglecting the pleasures of, or derived from the use of the headquarters.

The entertainment committee had put its right foot forward and furnished a most interesting program. The illustrated lecture on "Rubber and Its Uses," and especially its relation to the motor industry, furnished by the Goodrich Rubber Company, was especially appreciated, exemplifying, as it did, the great work that has to be done to develop the crude material into the finished article such as one now finds on all automobile wheels.

The speaker, assisted by the views, carried his auditors from the rubber plantation to the modern manufacturing plant, showing in detail the many and various steps necessary to produce the rubber tire with which the world at large is so familiar.

In its trip from Cincinnati to St. Louis, the Franklin trek was forced to travel through deep mud, after a three days rainstorm. The roads were in the worst condition ever known, and the party was repeatedly warned to abandon trip on account of their dangerous character.

On two occasions during the trip it was necessary to pry and fairly dig the Franklin out of the mud holes. Not another car was seen throughout the trip. Between St. Louis and Terra Haute the car was forced to travel on low gear throughout. This, as is well known, is always hard on a motor and usually overheats the engine. The Franklin, however, had no trouble therewith, never once showing a disposition to balk or to become overheated.

In speaking about the racing at Atlanta last week S. D. Loyd, of the American Automobile Company, said: "Little driving the American six hundred miles in two days' racing, at the rate of ninety miles per hour, goes to show that the car is built on honor, and is quite capable of repeating any test requiring the hardest endurance, and yet with all this hard driving, defeating specially made imported racing cars, also smashing track records, without making one single mechanical adjustment."

GOOD UMPIRE WHO IS THERE ON THE JOB

Good umpires are scarce, but if any teams or leagues are looking for an experienced indicator man there is one who will fill the bill in J. H. Evans, the former judge of decisions in the Carolina, New Hampshire and Vermont State Leagues. He is recommended by Jake Morse and American League expert Billy Evans. Teams wanting his services can find him at No. 18 Field street, Dorchester.

BASEBALL NEWS NOTES

Tommy Leach is said to be the best judge of a ball in either league. He turns his back on fine values and has been known to order the flying leather in the right spot to rest.

* * *

Walsh, White, Smith, Scott and Rorm make the White Sox dangerous. The deadly curve ball is a puzzler to even infielders who do not average twenty-two years of age.

* * *

Scout Mike Kahoe is scouring the country for semi-pro pitchers who will strengthen the Washington Americans.

* * *

On May 15 ball clubs must cut down to twenty-five men. Most of the major league aggregations are already within the limit. The reduction will not help the weak clubs, as all of the good players have been disposed of.

* * *

Baseball form will soon begin to count. After weeks of erratic work the major league teams will soon be running true.

* * *

Charley Murphy is "in bad" with the Chicago police. The blue coats have informed him that "blocking the aisles must stop."

* * *

Manager Clarke has invented a cap with an aluminum brim, to which is attached a pair of colored glasses on hinges, which can be pulled down over the eyes.

* * *

Newark fans presented Umpire Tim Hurst with a floral horseshoe. Is this getting to be a civilized game? Even the umps appear to have friends.

* * *

How much of this "inside" ball business is "fake"? Didn't the Cubs win the world's championship because they had the best pitching staff in the league? When winning pitchers are working the players get credit for a lot they are not entitled to.

* * *

Next season the leagues will probably accept President Lynch's suggestion, seconded by Ban Johnson, to adopt an automatic schedule covering a long period.

FORMING NEW BALL LEAGUE

LEOMINSTER, May 12.—Fred Paige, formerly of the Northern and New York State League, has been in Leominster and Fitchburg during the last few days talking with the baseball fans here asking them if they would support a team if he would put one on the diamond in Fitchburg. Manager Paige said that the team would be composed of college and semi-professional players.

He also is talking about forming a league consisting of Portland, Biddeford, Manchester, Dover and Nashua. Manager Paige has leased the Circle street grounds, and has plans to erect a grand stand and bleachers to seat 1,500 people. Manager Paige will open the season Saturday, May 25. His schedule will be made up of fifty games to be played on Wednesday and Saturdays.

The fans of the town hope that Manager Paige will get a team on the diamond, and if he does the team will be well supported by Leominster sports.

LEOMINSTER HIGH IN AMHERST MEET

LEOMINSTER, May 12.—Leominster High School will be represented in the interscholastic meet at Amherst College, Saturday, May 21. Coach Harry T. Watson has picked from the school Russell Merriman and Robert Griffin. Merriman will enter the pole vault and broad jump, and Griffin will enter the hammer throw and high jump. They are classed as being the best two athletes in Worcester County for high schools. Merriman whirling a car in a meet at Fitchburg last year.

Coach Watson will have Merriman and Griffin to the Brown, Harvard and Dartmouth meets. Coach Watson will leave Friday night with Merriman and Griffin. In speaking about the meet Coach Watson said that Merriman and Griffin of the Leominster High School track team will show class at Amherst Saturday.

TIGER CUBS BORN IN INCUBATOR

NEW YORK, May 12.—A novel attraction was added to the curiosities on exhibition of wild animals at Dreamland, Coney Island. Incubator tiger cubs will be on exhibition. The cubs were born to-day. The proud mother is Rejah, famed for her ferocity. She was overtaken by the stork unexpectedly, and, according to Superintendent Snelling, the cubs will have to be carefully nurtured to save them.

M'GOVERN FIGHTS COULON FOR TITLE

Johnny Coulon and Phil McGovern box at New York to-night for "the bantam championship." They will scale at 113 pounds ringside, which is Coulon's "ideal" weight. The American bantamweight limit is 116 pounds, and Jimmy Walsh of Boston is the present recognized champion of his class.

HARVARD TO RUN NEW STYLE RACE

A new style of racing on the river has been just started at Harvard in the race for men who row only in wherries. This race is the first of the sort that has ever been held in the university, and is intended to give the new men a better show. The race will be held under the varsity management and will be rowed on Tuesday, May 24.

LE MOYNE-ROLFE DRAW AT WEBSTER

WEBSTER, May 12.—The fight between Kid Le Moyne and Billy Rolfe of South Boston, at the Lakeside Athletic Club, was declared a draw. Rolfe had the better of the going all the way. In the first round he floored Le Moyne and after that he landed almost at will. Le Moyne showed pluck in sticking out a losing battle.

MALONEY GETS AWARD.

NEW YORK, May 12.—Tommy Maloney was fortunate enough to knock down Jack Carley in the sixth round of their 10-round go at the Sharkey A. C. and thereby won the decision.

TURK WRESTLER LOSES.

WORCESTER, May 12.—Ehrsco, the Polish wrestler, was given the decision in a wrestling match with Cara Mostafa, the Turkish champion. The Turk quit in the second bout.

PAPKE-THOMAS BOUT FOR FRISCO

SAN FRANCISCO, May 12.—Because of the threat of the San Mateo County authorities to stop the Papke-Thomas fight which was scheduled to be held in the Mission Club arena Saturday, Jim Coffroth last night announced that the fight had been postponed to Thursday, May 19, and transferred to Dreamland Rink, San Francisco, where he holds the May permit.

Coffroth made the announcement after an all-day conference with the Sheriff and District Attorney of San Mateo County. Opposition to the fight grew out of the death of Johnny McCarty, who was killed recently in a boxing match with Owen Moran.

"I have instructions from the District Attorney to stop the fight," said Sheriff Cheatham, "and will be on hand with deputies to carry out the order."

The attitude of the San Mateo County authorities made the indefinite closing of the Mission Club, Papke and Thomas were notified of the postponement and made preparations to continue in their training camps until next week. There is little money in sight.

STRAIGHT TIPS
FOR SPORT FANS

A BIT OF NEWS I COATED OVER FROM New York last night that may interest Jimmy Walsh and his manager Eddie Kevin. Frankie Burns, who has licked Conlon and other good hangmen, has challenged Jimmy to fight for the title. Burns has posted $250 with Bill Hicks, sporting editor of the New York Evening Journal, to bind the match for weight, 116 pounds ringside. If the Bill Walsh and Kevin in the right spot they can get around and cover Burns' forfeit. Meanwhile Burns is waiting for the word from Boston. Burns says he will camp right if Walsh refuses to mix. (This is not Jimmy, but never put it past a boy with a box of box weight, so if he likes as tough Frankie would have to fight for it.

IT IS THE GENTLEMANLY AUTHORITIES of Mechanics, who have heretofore shown such good judgment in preventing the public from seeing bad fights, in doing in these days, so much as to refuse to put on the reported match between Ad Wolgast and Danny Dunn, which is billed for a six-round affair in the Smoky City. With everything on the level, Dunn would have about as much show against Wolgast as a snow ball in a place we have all heard about.

MATTY BALDWIN AND HIS MANAGER, Alex McLean, go to New York to night to be on hand for the bout with Ir Leach Cross which is to be held in Tex O'Rorke's club to-morrow night. Baldwin called around to say good-bye and express supreme confidence in his ability to knock the dentist's block off. As Mattie hails from Boston I am with him in spirit.

TONIGHT WILL BE A BIG NIGHT AT Ronghan Hall, Charlestown. The Hayes Square Outing Club will hold their annual May party. Among those present will be Bill Carrigan and other members of the Red Sox; Bill Evans the umpire, Eddie Shevlin, Honey Mellody, Twin Sullivan, and many other noted sporting celebrities. Jack Ryan, "The Belle of the Navy Yard," will lead the grand march. A midnight concert has been arranged which should surpass any vaudeville show.

WALCOTT BROTHERS TO BOX IN SAME RING

Joe Walcott, who recently celebrated his reappearance in the ring by beating Bill McKinnon in a twelve-round bout, will meet Kyle Whitney tomorrow at the Young Men's Club at Brockton. Both these darkies have fought before this club and left good impressions upon the crowd.

Two good preliminaries will be staged before the stars go on. Chester Walcott, brother of Joe, will add a fourth boy to Young Murray of Roxbury to battle with for eight rounds, while Young Dunahue of Whitman clashes with Young Donahue of Brockton for six rounds.

MORAN IS FREED OF DEATH CHARGE

SAN FRANCISCO, May 12. Charges of manslaughter against Owen Moran and others, preferred on account of the death of Tommy McCarthy following a knock-out blow by Moran in a glove contest, were dismissed by Police Judge Conlan. The judge held that, as all the conditions imposed by law on such contests had been complied with and as the coroner's jury had pronounced McCarthy's death accidental, there was no ground on which to hold the defendants.

Before and After the Game

By A. H. C. MITCHELL

All the Red Sox pitchers are glad that Harry Wolter is making good with the New York Americans. He was very popular with the boys while he was a member of the Boston team. The question is often asked, "Why did the Red Sox let him go?" It need be borne in mind that he is a left-handed batter, and, as we have said a good many times before, the Red Sox will get all the left-handers against the Red Sox. Wolter was a good all-around player, but the team had no place for him as a regular, and as a pinch hitter he did not look good as a left-hander against left-handed pitchers.

Wolter's New York record is a different case. The Yanks get right-handed pitchers most of the time, and Wolter is able to strike them either in the air or on the ground. He is able to the Yanks and was batting a pinch strong man for the Red Sox.

Bailey in another villain of the piece, seeing he pitched a game against the Red Hose. It is to be hoped that the news of Bailey's demise will reach the ears of managers of American League clubs, especially Connie Mack. By the time the athletes get around again our fellows will be prepared to knock Krause's curves galore.

Charlie Smith made his return to the game not only conspicuous by pitching a good game, but was also conspicuous by getting a pitcher Bailey. The district with the score tied and two aboard in the fifth. No one suspected that Bailey was going to start the storm, so they sat by, but he did his batting and hit one out. Bailey was so surprised he proceeded to pitch a wild one and a minute later he [illegible] got out of [illegible] Red Sox pitcher stood [illegible] Bailey re[illegible] Hooper [illegible] walked him. Harvard Athletic News

By W. E. BURTON

Coach Quinn of the Harvard track team is considerably disappointed with the showing of Jimmy Lee, the Crimson's chief hope in the pole vault, his made since he returned. Quinn expected the height of the boy [illegible] round into shape in much faster style than he has done. Barr appears to have become only out of practice [illegible] [illegible] Coach Quinn doubts if he can clear over 11 feet. 0 inches in the vale meet. Besides Sam Lawrence, who is expected to be doubled, Lee is the only other Harvard man who stands any show against the [illegible] in the pole vault. If Barr continues to slump Harvard can hope for only second place in this number.

Peter McLaughlin, the Harvard umpire with the singing voice, incurred the displeasure of the Amherst fans in the fourth inning when he declared the long fly to centre by Hicks a double. Captain Walcott, followers also thought Hicks was out. It looked as if Julio would be safe by a good inch from the ground, but Mac thought differently. He gave Julio the [illegible] throwing down his glove angrily and running in to remonstrate with the Harvard umpire. Mac, and curiously enough, the crowd in the Amherst centre bleachers, for Mac is known to break no discussion of his decisions, and in a school boy game, short time ago, in which Lee was umpire, [illegible] a crowd threatened to mob him. Laughlin has in reserve proved a pretty fair baseball judge, for Harvard has come up against any more heartbreaking ones such as Amherst, it might be well to have a second umpire to watch bases and fielding.

As a pinch hitter Minot seems to be a failure. He either pops easily to right garden or dumps a slow roller to the [illegible] Gate Quinn.

Harvard's annual Spring Interclass tennis tournament will begin on Jarvis field Monday.

The Harvard Freshmen and Sophomores will hold a shoot this afternoon on Soldiers' Field.

Aronson made two of Harvard's four hits. It was the first time he had collided with the ball with the spheroid since the Williams game.

McClure, the Amherst twirler, said after the game that he pitched his worst game of the season. Harvard batsmen are wondering why he would have done it, the Crimson if he had been in proper form.

If Venus Aphrodite Had Landed in the Spring of Nineteen-Ten

BY NELL BRINKLEY

Copyright, 1910, by American-Journal-Examiner

On the Shoulder of the Wall of Sea-Green Water Rises the White Woman of the State—Venus Aphrodite—to gaze in admiration at the Betties of Nineteen-Ten.

IF that calm great white woman goddess, Venus, had procrastinated about rising out of the sky-blue Mediterranean sea! If she'd only changed the time and the place, and made it the beaches of Massachusetts and the Spring of Nineteen-ten! What would she think of our profiles and our frocks, our little dunkey girls that we call "peaches," our natural, every-day waists, our cheeks and our feet? The nose of now-a-day—the little French-American nose, that our Bettinas have, that were goos promising noses when they were wee lambs, but forgot to grow along with the rest of them—what would she think of them? She, with the long straight nose that grew like a bright sword in a plumb line with her brows!

Can't you see the horror in her eyes, the furtive growing admiration, too, for Venus was a woman, whatever else, and the frocks would go straight to her mighty heart, I bet!).

It's fun fancying it out. A long cycle of yellow sand with the sea lipping it and leaving a glassy border where it has been sucked away. The great complaining gray Atlantic, heaving out there and sometimes pulling the shore water out and away, heaving and piling it up into a mountain range that freezes for a breath, towers, stirs and falls, trampling the shore in a white rage and sending out little floods foamy and filled with the little sound of myriad breaking bubbles that reach like hands for your heels. And then the great gray Atlantic does it all wearily over again. Far out the great sea-dogs send up the froth from their teeth as they race in close ranks.

And the hot yellow sand is alive with pretty girls—oh, pretty girls—the cream of the Bay State, you know 'em! Bathing girls in their kitties and silk socks, lounging ones in marcies, and the frocks would go straight open morning-glories, ruffed and belled for the slaughter of the Big Billies—and quite suddenly, lifted against the blue sky on the shoulder of the wall of green sea-water, rises the white woman who was [illegible] the sea after threatening Titian Heart an interesting retiring thrill. Languid women and amusement on the shore-line —calm contempt and growing admiration on the seaside.

CHAPTER XIX.—Continued.

FRANCES was in for it now, and she determined to play her part to the best of her ability. She fondled her husband and kissed him as she cooed.

But there was a feeling of nervousness in her that was reflected in Dick. That subtle transmission of thought and feeling which exists between man and wife as definite as the wonder of telephone as is the telegraph. He felt uneasily that she was lying.

Dick Turns from the Money

"Very well, my dear," he said, "we'll call off the sale of the house to-night, anyhow. But I can promise no more."

She picked up the money and held it out to him. Something told him not to take it. He turned away.

"I'll put it away dear," she said in an uneven voice.

Frances felt a strange fear at her heart. Was he going to uncover her secret? What would he do when he found out? Kill her? she asked herself.

Her knees trembled, but she summoned that courage she had and asked him if it would dine at home.

"No," he replied. "I can't very well. There is no cook, nothing to cook that especially belongs to us, and I feel like an interloper in the place."

"I am ill with worry," she said, faintly. "I shall make myself some tea and go to bed."

"Very well," Ward said [illegible]

He left and [illegible]

Frances slipped upstairs and at a front window watched her husband start with a lurch, even hurried, step down the drive.

THE twilight passed into [illegible]

As it was she had tried to play both games in the [illegible] field of [illegible] was [illegible] chief, in [illegible] of Saffron Thorne. She was in the [illegible] the thought of this did not disturb her. It was the thought of a reckoning that sent the chill to her cowardly heart.

All through the early hours of the evening she sat in the window, scared and trembling. Once she left her post to get a drink of brandy. She felt that she would faint before the [illegible] night, at which [illegible] which the sacred name "home" was a mockery.

The Night on the Drive

Ten o'clock and the Drive began to quiet, the children starting home. Eleven o'clock and the clouds of the first [illegible] sent storm and palsied the skies. Big, warm drops of rain splashed to the green slopes and the last of the people out of doors hurried for home and shelter.

What was it she had seen from her pillow?

She [illegible] had seen [illegible] and a patch of [illegible] [illegible] in a face [illegible]

An [illegible] room, and now saw her husband standing with ghastly, white face and staring eyes at the foot of her bed, and with one hand upon the table which held the silver mounted telephone receiver.

SOCIETY BUYS PRESENTS FOR JUNE BRIDES

By ELIZABETH ELLIOTT.

JUNE weddings are already occupying a conspicuous place in the attention of society. There is a long and brilliant array of them, and the members of the smart set are kept busy purchasing presents and "shower" gifts. In fact no hour a time are the debutantes having managing their pin money and doing all that is expected of them that one of them declared the other day they would have to go into bankruptcy.

First among the June brides is pretty Barbara Sheafe, daughter of Mr. and Mrs. Edwin Sheafe, who on the initial day of the propitious month will become the bride of Allen McKissock. The wedding is to take place in the St. Lawrence's Church in Brookline, at noon and will be followed by a reception and breakfast at the home of the Sheafes, near by.

The bride has chosen for her attendants her two younger sisters, the Misses Mary Hale and Ann Wentworth Sheafe, and Miss Helen McKissock, sister of the bridegroom. Paul Burdett is to be the best man, and the list of ushers includes William Sheafe, Jr., Donald Cutler and C. Desmond Wadsworth of Boston, Robert H. Hutchinson of Philadelphia, and Sheafe Walker of Concord, N. H.

Mr. McKissock is the son of William McKissock of Chestnut Hill, and is well known among the younger club men in town. Miss Sheafe was quite the rage when she made her debut three Winters ago, as she is exceptionally pretty, being tall and blonde, with a slender, graceful figure.

Mr. and Mrs. Charles Sumner Barton of Worcester, announce the engagement of their daughter, Miss Helen Katherine Barton, to Dr. William Edwards Ladd of Milton.

* * *

Mrs. James Lowell Putnam of this city is in New York this week as the guest of her brother, Monroe Redmond. Mr. and Mrs. Putnam are to spend the coming Summer in Europe, instead of going to Bar Harbor as has been their custom each year. They are planning to leave for the other side at an early date.

* * *

Mrs. John C. Phillips and her daughter, Miss Martha Phillips of Boston and Washington, have been entertaining the Second Secretary of the British Embassy at Washington, and Mrs. George Young and their family. Mr. and Mrs. Young and family are leaving Washington to-day for their home in England. They are returning to Washington in the Autumn. Now that Mrs. Phillips has a son in the American Embassy in London who with his bride entertains Americans almost quite extensively, the family here will of course, be called upon more and more to entertain distinguished guests from England. Their residence in Washington this year has greatly increased their acquaintance in the diplomatic sets of both countries.

* * *

Mrs. Robert Winthrop has decided to spend another Summer in the Berkshires, and will open her country place at Lenox on the first of the month.

* * *

Mr. and Mrs. Franklin F. Raymond of Beacon street, are to spend August and September at Beach Bluffs.

The successful performance of Gilbert & Sullivan's "Iolanthe" by the Leonard Hand Dramatic Club, under the patronage of society, which was given at Jordan Hall recently, is to be repeated this evening in Lodges will be the scene of dancing in the social service work of the several departments of the Berkeley Infirmary and allied hospitals.

GERALDINE FARRAR IS OFF TO EUROPE WITH PURSE FULL OF GOLD

Miss Farrar and Enrico Caruso, grand opera stars, "snapped" by camera at pier before sailing on Kaiser Wilhelm II.

NEW YORK, May 12.—When the "High was at least $44,000. To this must be C. Express," as the Kaiser Wilhelm II was willfully named, sailed for Europe with a flock of Metropolitan Opera songbirds aboard, it was estimated that the flock was taking abroad at least $550,000 of good American money.

It may surprise the public to learn that of the departing quartet of prima donnas, Mmes. Farrar, Eamond, Farrar, Gadski and Destinn, Geraldine Farrar, the Boston girl, is the highest paid and that Mme. Destinn receives the least money. Miss Farrar's contract is said to call for $1,000 a performance, and she is guaranteed forty performances. Probably she has sung more during the past season. Her income added $17,000 derived from the phonograph company, as Miss Farrar's records are among the most popular.

Mme. Gadski receives $1,000 a performance for forty performances. Therefore she took away $40,000. Her phonograph records were probably worth about $10,000 to her during the past year. Mme. Fremstad earns the same amount yearly from the opera company. Mme. Destinn is said to receive $800, which brings her income down to $32,000 for the season.

The income of Enrico Caruso, the tenor, from records alone is said to be at least $50,000 a year. At the opera he is paid $2,500 a performance, and as he sang at least sixty performances during the last season, his income from the Metropolitan company was at least $150,000. Mr. Caruso may be estimated therefore to have carried away something like $200,000.

SOCIAL AND CLUB NOTES

The members of the Roxbury Carpet Weavers' Union will hold a shirtwaist party to-night at Berkeley Hall, corner of Berkeley and Tremont streets, South End. Mrs. Elizabeth G. Evans of the Back Bay, Miss Maud Gillespie, a Radcliffe girl, and Michael A. Murphy, all of whom took an active part in the girls' strike, are among the invited guests. The dance is to be held in celebration of the girls' recent victory at the mills.

The Boston College Club of Cambridge will hold a ladies' night this evening at Brewster Cafe, Cambridge. There will be a reception to all the young ladies who are connected with the Cambridge trade at the coming garden party at University Heights, Newton, June 18.

At a public meeting of the South Boston Parents' Association this evening at the South Boston High School Building, Ernest G. Hapgood, master of the Sumner High School; Mr. W. H. Ruddick and Dr. John F. Sullivan will speak.

The annual dancing party of the Dorchester Debating Club of Charlestown, this evening at Bonghan's Hall, Charlestown, a combination of good music and the modern ragtime will bring some dreams of pollyanna a large number of young people to the Charlestown vicinity.

"Jack" Ryan is in charge of the arrangements.

The Lotus Club of Roxbury will hold a dancing party to-night at Wheelock Hall, Upham's Corner, Dorchester. Each man will be presented with a fancy necktie.

A party will be tendered to Miss Madeline Gavin of Revere Beach, to-morrow evening at Parker Hall, Beachmont, on the eve of her departure for Europe.

Professor Hugo Munsterberg of Harvard delivered an address at the Phi Beta Kappa exercises at Goddard Chapel, Tufts College.

The Beacon City Club will hold its last entertainment of the season to-night, on the program are Dr. Alice C. Harpin, Worcester "girlfone"; Arthur Geo. pianist; Mr. Chamberlain, soprano, violinist; Karl A. Anderson, character sketches, and Mr. Arthur Colburn, accompanist. Edward Lynes will conduct.

At the People's Temple the pupils of Arthur J. Hubbard presented Dubois's "Paradise Lost." Henri Blaisdell conducted. The soloists were Anna C. Cumberlidge, Arthur J. Hackett, Charles F. Hackett, W. D. Perrault, N. A. Arnold, E. E. Gilbert, Andrew May, George McGowan, John H. Todd was organist and Margaret Gorham pianist.

"RITA" HERE WITH PRAISE FOR BOSTON

"Rita," the distinguished English novelist, bewildered by American customs, out of breath trying to keep up to the American pace, is in Boston being although she arrived only last night. She has decided that Boston is delightful and as much different from New York as if it were another country.

"Even your voices are different," declared Mrs. Humphrey. "From the moment I arrived I saw that you were more cultured, less noisy; that you modulated more less frequently; that you were—well, entirely different.

"American women? Positively charming. They are beautiful and I realize mean that —not said for effect, understand? And above all, they have good figures. I never said they were fat, as I have been quoted. How could I say so, when I find them all so delightfully svelte and girlish?

A Gloved Rap at Our Trains.

"I'm very nearly dead already. I never lifted so strenuously before. Most of my troubles come from your deplorable train system and your more than deplorable baggage management. In my best gown I am pushed and crowded in your train service, coarse, greasily-clothed workingmen, rub elbows with me in my efforts to get on. Worse than that—I have to do without my baggage for three days, and then it comes to me like a bunch of rags. My poor pretty gowns! No, even the best prices in a shop can resurrect them. When I go back to England I shall tell them that the American system is to be praised beyond all things.

"And, really, my hand has never been out of my pocket from the moment I landed.

"In England we can get coppers whether we tip or not. Here, alone right-sided haunt me even in my dreams. I find I am giving away the silver quarter pieces, just really knowing how much they are worth. Now I have got down to the dime, the 10-cent pieces and I find they do just as well.

Divorce! No Children! Hotels!

"Divorce—what do I know about American divorce and family life except that we all live in hotels and haven't any children. To be sure, you Americans seem to change partners just as we used to in the old-fashioned country dances, but that is none of my affair. If you want to get rid of the laws make it easy for you; it isn't anything for English people to worry about. They asked me what I thought of American children. Are there any? I answered, for I had only seen one. Mayor it is only the poor people who can afford them any more.

"And every day little wonders comes ver close together—they seem like toy automobiles or doll houses. And where are their nurses? In England we have trees that are the growth of centuries and here you keep one cut down to the size of a mustrull—thoughtless—just the same as you want everything. In your hotels, they serve one person enough food to feed four. You don't get as little for a little. You have to buy a whole bird, or a whole animal, to say a big price and nine tenths of it to be thrown away. I am of South Africa and I don't like it.

"No one ever says 'Mum' or 'Madame' over here. Your waiter promptly answers 'Yes' and 'No' and 'Sure' and 'All right.' I was shocked, but I'm getting used to it. I am beginning to get used to it.

13 LOST WHEN BIG STEAMBOAT STRIKES ROCK

ST. LOUIS, Mo., May 12.—After a night of searching, it was declared to-day that thirteen lives were lost when the river steamer City of Saltillo tore out her bottom on a rock and turning turtle sank off Glen Park, Mo., twenty-four miles south of here, last evening. Many of the survivors of the twenty-seven passengers aboard at the time of the accident are in a serious condition.

The known dead:

MRS. ISAAC G. RHEA and daughter, Nashville, Tenn. Mrs. Rhea was the wife of the president of the packet company owning the boat.

S. C. BAKER, first clerk on the steamer, St. Louis.

MRS. JOSEPH HARRIS, wife of Dr. Harris, of Nashville, Tenn.

MRS. ARCHIE PATTERSON, Nashville, Tenn., returning from a visit to parents at Chester, Ill.

ARCHIE PATTERSON, Jr., five years old, son of Mrs. Patterson, who went to her death with him in the arms.

WILLIAM J. PICKETT, traveling salesman, St. Louis.

POSTAL CLERK FOWLER, St. Louis.

MRS. LENA WALL, Nashville, Tenn.

It is known to have gone down with the boat, bodies not yet recovered.

The City of Saltillo was one of the fleet on which President Taft and the congressional party will ride during the Mississippi in the company of the deep waterways convention delegates.

High Water Deceives Pilot.

The accident occurred at the worst time possible while the passengers were retiring or were already asleep. The high stage of the river, it was told to-day, deceived the pilot, who took his vessel too near shore. She struck a rock and pivoting on that careened and then toppled on her side.

In the wild confusion of the passengers and the crew—more than fifty persons all told—there was no time to account for all. It was each one for himself.

So close was the ship to the shore that after the first moment of excitement a board was thrown from the ship to the bank, and across that men, women and children in the dark crept to safety. So great was the confusion that even those traversing the plank were unable to tell if those before them were safe.

Death lurked in the river and the officers of the boat, according to the stories told today by survivors, displayed heroic coolness, doing all possible to quell panic.

All Night Search for Bodies.

The noise of the accident, the crash of the steamer on the rocks, the shrieks of the passengers, brought out the entire population of Glen Park. Within a short time after the boat struck lights taken up the search for the victims and the river was dotted with the lights. The search continued throughout the night and to-day. A special train was rushed from St. Louis, and in the meantime hospitals were organized at Glen Park, where the passengers and crew were attended until the special arrived to bring them to St. Louis.

The wreck created intense excitement in the little town, and the citizens turned over their homes to the victims, supplying sustenance and clothing. Physicians were taken to the town from Sulphur Springs, adding the Glen Park doctors, who had their hands full attending the injured and reviving the half drowned.

BATTLESHIPS WILL REMAIN IN SERVICE

The battleships Wisconsin, New Jersey and Missouri will not go out of commission as expected, according to orders received at the Charlestown Navy Yard today. The Wisconsin is at Charlestown, and the other two are at Portsmouth. The Wisconsin was to have had two years' work done upon her, and the others six months' each. The three new torpedo boats, Lawson, Preston and Smith, started on the government trials on the Rockland trial course to-day. The Smith to-day broke the wireless record for her type. She sent a message from Rockland to Cape Cod, a distance of over 100 miles.

TELEGRAPH MEN GET PAY RAISED

The telegraphers and signal tower operators employed by the Boston Terminal Company, which owns and controls the South station, are to get a raise in pay when the demands of the telegraphers and tower operators on the New Haven system are disposed of. This was agreed upon at a conference between committees representing the men and the company. A conference with President Mellen will be held on Saturday by representatives of the New Haven road's operators.

The AMERICAN goes into more homes than all the other evening papers of Boston combined. It is the Quality newspaper.

IMPORTANT CITY PROPERTY TRANSFERRED

C. H. Lewis of No. 15 State street has sold to James H. Doyle the property numbered 18 Chardon street, West End, consisting of eighteen apartments and six stores, with a total assessment of $20,000, of which $15,000 is on 1,936 square feet of land and the balance on the building, which is a three and one-half story brick structure. The location is near Green street.

The estate at No. 625 Tremont street, South End, has been sold by Katie M. Hewins to Flora Leverone, who buys for investment. The total assessment is $12,000, of which $5,800 is on 1,750 square feet of land and $6,200 on the three story dwelling house. The seller was represented by Messers. Cunningham & Mossman, the purchaser by Lefferton L. Mossman.

An important sale of property has just been recorded, the consideration being $60,000. The property is on the northerly side of Boylston street, between Hereford and Gloucester streets, and consists of a lot of land containing 3,000 square feet, with the brick building thereon, which is assessed for $37,200, of which $12,000 is on the land and $25,200 on the building. The seller is Thomas F. Rothwell and the purchaser is William Lamb.

Thomas F. Rothwell has also sold to William Lamb, for the consideration of $40,000, a lot of land on the northerly side of Boylston street, between Hereford and Gloucester streets, containing 2,000 square feet, with a three story brick building thereon, assessed for $27,200, of which $8,000 is on the land and $19,200 on the building.

Another South End estate sold is that at No. 20 Lawrence street, which, with the adjoining lot, has been purchased from the Cathedral Lawrence Realty Trust by Mary Sullivan. The property is a three story brick house and 1000 square feet of land, assessed for $5,000.

C. Frederick Ruggles of Jamaica Plain has purchased from the Cathedral Lawrence Realty Trust the house at No. 22 Lawrence street, adjoining the above. The premises are frame and contain nine rooms and 1,000 square feet of land, assessed for $4,000.

Mrs. Rose Hoffman has purchased from Mrs. Jennie Howe the Roxbury property numbered 1,742 Tremont street, containing about 7,000 square feet of land, and having a frontage of 70 feet on Tremont street, and a depth of 100 feet on Hagen street. The property is assessed for $6,700. Mr. Lewis buys for investment.

C. H. Sawyer has purchased of the Cathedral Lawrence Realty Trust the estate at the corner of Lawrence and Hagen streets, containing about 18,512 square feet of land, and having a frontage of 100 feet on Lawrence street and 185 feet on Hagen street. The property is assessed for $8,000. Mr. Sawyer intends building two dwelling houses on the vacant lot, which is assessed for $2,000. Edward A. Spalding, Jr., Esq., was the attorney in the transaction.

Louis J. Welch has sold to Mary Conway the two story brick dwelling house of Turner street, containing about 1,000 square feet of land, assessed for $3,000. Mr. Welch has also sold to Mary Conway the two story brick dwelling house of 20 Turner street, containing about 1,000 square feet of land, assessed for $3,000. Mr. Welch has also sold to Mary Conway the two story brick dwelling house of 22 Turner street, containing about 1,000 square feet of land, assessed for $3,000.

In the same section a new frame house, not yet taxed, and 2,440 square feet of land on Ivy Walk, have been sold by Mary Conway to Mary Sullivan, both parties residing in Roxbury.

Mary Sullivan has also purchased of Mary Conway the estate numbered 1,742 square feet of land, with a frontage of 20 feet on Ivy Walk, and a depth of 100 feet on Hagen street, both parties residing in Roxbury.

Mary Sullivan has also purchased of Mary Conway the estate numbered 1,742 square feet of land, with a frontage of 20 feet on Ivy Walk, and a depth of 100 feet on Hagen street, both parties residing in Roxbury.

ROXBURY GIRLS DEVISE WALTZ TO HONOR COMET

MISS LILLIAN HARRINGTON

MISS MARGARET DEMPSEY

In Wheelock Hall, Upham's Corner, Dorchester, this evening, the annual "Apron and Necktie" party of the Catholic Lotus Girls club, an organization of the young women of the Mount Pleasant section of Roxbury will be held. A "Halley's Comet" waltz is one of the numbers on the dance card. It was composed by Lillian Harrington and Margaret Dempsey. Twelve pretty girls will distribute neckties during the evening.

The affair will be in charge of Ella Carney, Margaret Carney, Margaret Dempsey, Frederick T. Keefe, Louise Kennedy, Bertha Red, Mary Grihan, Rose Bath, Lillian Harrington, Mary O'Connell, Mary Higgins, Theresa Carey, Annie Cunniff, Rose McNulty, Annie C. Graves, Julia Devine, Mary McManus, Evelyn McNeil, Katherine Dunne and Gertrude Bell.

MAKE FURNITURE AT HOME—
Just how to do it will be told and illustrated in the SUNDAY AMERICAN. Every housekeeper will be interested in this.

CHARGES HUSBAND ABANDONED BABY

LYNN, May 12—Theodore Hurlburt was today arraigned in the Police Court charged with abandoning his eleven-day-old son on July 21. He pleaded not guilty and was held in $500. The child is being sought through the state Board of Charities. Mrs. Hurlburt told how her husband took their baby away. He said he would find a good home for it. Later on when she demanded the death certificate, he confessed that he had thrown the child down on a doorstep. The police say the child was found there. Prior to the discovery, Hurlburt charges his wife with committing the act.

GUILD ORATOR FOR MICHIGAN ALUMNI

ANN ARBOR, Mich., May 12—Alumni Memorial Hall, a handsome building erected to the memory of University of Michigan soldiers who fought their lives in the Civil War, and also to the memory of those Michigan students in the Spanish war, received notable accessions in the world wide dedicated with impressive ceremonies. The oration of the occasion was Curtis Guild, Jr., of Boston, former Governor of Massachusetts.

LATEST BEAUTY RECIPES—
Swimming is one of them that will be told of in Miss Elsa Von Grotthuss' article in the SUNDAY AMERICAN. There are others. Don't miss them.

FIFTY KILLED IN A GREAT TYPHOON

TOKIO, May 12—Fifty persons are known to be dead and a score of vessels have been wrecked by a typhoon raging over the waters about Kobe, the Harima Island and Izumi seas and the Kii channel. It lasted over hundreds lives perished. One passenger steamer was driven ashore in the harbor of Kobe with all of the fifty on board.

It is believed that many vessels in the path of the storm will never be heard from.

THE MYSTERIOUS CAMORRA—
Terrible doings of the strangest band of assassinates in the world will be told in detail in the
Sunday American.

GRADUATED FINES FOR AUTO SPEEDERS

John Bruce practiced his graduated fine system on three auto speeders in Malden in the police court this morning. The Judge imposed $2 fine every time he caught a speeder. Speed limit, 15 miles. All three violators, caught on the Salem street boulevard, were arraigned today and paid their fines, which totaled $6. Samuel F. Bolling, Somerville, 27, thirty-two miles, $24; Frederic G. Kensel, Schenectady, N. Y., twenty-eight miles, $56.

ACME COMPANY NOT DAMAGED BY FIRE

Through an error it was stated that the premises of the Acme Frame & Mirror Company were burned out on May 2. This company occupies the building, which is located at No. 142 Friend street, and the premises of the Acme Electric Heater Co. was a fire recently.

MISSED BY CENSUS MAN? TELL GETTEMY

If you have an idea that the census man missed you in Boston, hurry up to Census Supervisor Charles F. Gettemy at the State House and make sure. If, by chance, you are not on the list, there is still time to get listed. The Boston census is practically complete and only a few days remain in which to be in it.

TO-DAY'S STOCK MARKETS

STATE ST. NEWS FOR INVESTORS

People realize to-day that the outlook for crops is more encouraging than they thought was the case a short time ago, and that the season is far advanced.

$ $ $

The Bank of England shows its intention of keeping speculation in check by refusing to lower its discount rate.

$ $ $

Much talk is heard of the improved condition of the copper metal market. There is no doubt but that is so, advances have been made at advancing prices. The rumor that the leading interests have agreed on a basis for curtailing production cannot be confirmed.

$ $ $

There is no need of "private positive information" regarding the ability of the Steel corporation to pay its present rate of dividend. The company's position financially is an open book, and every stockholder may see for himself how his investment stands. The eight years' record is an assurance that the advance to the 5per cent. level was a conservative step. Even taking the earnings up to date, it will be found that they are at the rate of $15,000,000 for the year, which means that after meeting all payments, including the dividend on the preferred stock, there is advanced materially the street will not like the increase. Brooklyn as a 5 per cent. stock is considered better than Steel just now, because even a depression in the population of Brooklyn will have to travel, whereas the Steel Trust must find its earnings seriously curtailed.

$ $ $

Consolidated and Brooklyn Union gas at present prices are on the bargain counter. Both have very large concealed assets and both are able to declare extra dividends. On their present dividend payments they yield 5 per cent. respectively. Brooklyn Union Gas is much cheaper than Consolidated Gas, and especially true since an extra dividend on it is being figured on by the directors.

$ $ $

Pacific Coast is another stock showing strength. This belief is due to the directors of that directorate to pay another installment on account of the $10,000,000 paid in the past year. In addition to the dividend outlook, it is reported that St. Paul is willing to put several millions dollars of the money it is borrowing in Europe into Pacific Coast stock by selling rights to it. It wants the company on account of the terminals it controls in the Northwest.

$ $ $

Although the American Car & Foundry will not increase its dividend, the directors has adopted a policy that explains the occasional inaugurator of the 8 per cent. rating aside from the surplus earnings money to be applied as a reserve to maintain the dividend rate on the stock. The company has no bonds and this stamps them as dividends, which is something new in the street, is making the stock a very attractive investment issue.

$ $ $

According to interests in close touch with the American Agricultural Chemical company business is very good at the present time and earnings are showing a steady increase. Judging from the more favorable condition of fertilizer the industry as the amount of virgin land decreases, it is probable that the company will increase more rapidly than heretofore.

The annual meeting of the East Butte Copper Mining Company will be held in Phoenix, Arizona, June 6. Proxies run to Robert H. Gross and William P. Evers.

A good part of the recent large sales of copper are said to be the covering of short interest in London. The Guggenheim and Phelps-Dodge properties are now sold up to July 1. The Amalgamated interests are not so well sold ahead, but have practically no spot copper.

A change in control is possible at the annual meeting of the United States Rubber Company next week. For more than a year there has been quite accumulation of Rubber stock. The new interest is understood to want a change in the management and on which the company is earning 12 per cent.

There appears to be a possibility that Senator William A. Clark of Montana will shortly yield to the Heinze for his Butte mines.

Manager Charles A. Ruggles of the Boston Clearing House Association is in New York attending a meeting to round up the banks of that State who do not remit checks at par, as intended by the foreign department of that institution.

NEW HEIGHT RECORD FOR U. S. BALOONS

HORSE CAVE, Ky., May 12—The American height record for ballooning was broken by A. Holland Forbes and James Yates, whose narrow escape from death in a terrific drop from the clouds was the thrilling feature of the aerial contest here. They rose to a mile and a half and then descended at least 20,000 feet. This is exceeded only by records made by airplane and trees. Forbes and Yates have gone to Louisville to await the arrival of Mr. Yates' brother from Bridgeport, Ct. Valuable photographs of Hadley's views were taken by Forbes.

SAW LORIMER; GOT $1,000.

CHICAGO, May 12—Confession of inside facts of the legislative bribery scandal by Representative Michael S. Link, in which he admits seeing Senator Lorimer before $1,000 was paid him for his vote, is expected to result in other indictments being returned by the Grand Jury, which resumed its investigation to-day.

Nearly everybody in Boston reads the AMERICAN.

LOCAL COPPER MARKET QUIET

After an irregular opening, which showed fractional declines, the local market became quiet, with little interest being taken by either bulls or bears. Bonn traders were bearish and seemed to think the coppers were about ready for a reaction. By offering quite some stock they succeeded about noon in causing some little decline, but the supply from this source was covered easily. Afternoon trading was the feature of the rest of the list and, while mixed and in small amounts, the buying was good. United Fruit, Shoe Machinery, Boston and Massachusetts Gas were well taken. Rubber interest was taken. Of these Fruit was the strongest, and while bought for any amount around 184 comparatively no stock came out.

On the curb Massachusetts Gas was the feature of the trading, and after selling at 83 jumped up to 91.

The Brooklyn Rapid Transit Company has declared a quarterly dividend of 1¼ per cent, placing the issue on a 5 per cent. per annum basis.

GOOD FOR EPICURES.

The Bromfield Inn, which has just undergone change of management, announces that a new cuisine has been installed to appeal particularly to discriminating palates. Leo Robinson, the new proprietor, says the service will be "par excellence" with a higher standard than ever.

Why buy a piano and be satisfied with piano music only, when for a small fraction of the cost of a piano you can have

The EDISON Phonograph

bringing music of every instrument into your home, the whole band, orchestra, Grand Opera, the whole vaudeville show.

FOR a good piano you have to pay about $400.00. Think! For one-half that price you can have an Amberola—the highest type of Edison Phonograph made, and just as beautifully finished as a $1000.00 Grand Piano. And you can get other types of Edison Phonographs at any price you want to pay, from $12.50 up.

Does your Phonograph play Amberol Records? If not, ask your dealer about our money-saving combination offer on Amberol Records and the attachment to play them.

FINAL PLEAS IN SWOPE CASE

KANSAS CITY, May 12.—Final arguments by the State and opening arguments for the defence were heard to-day in the trial of Dr. B. C. Hyde, accused of the murder of Colonel Thomas H. Swope, millionaire philanthropist. Before arguments were begun Judge Latshaw instructed the jury that it must either return a verdict of not guilty or find the defendant guilty in the first degree. The jury may, in its discretion, fix the punishment at hanging or life imprisonment.

The arguments were of a technical character to-day, but were occasionally brightened by a flow of oratory from the attorneys.

It is expected the jury will take the case early to-morrow and return a verdict not later than Saturday morning.

GOOD NEWS FOR GOOD DRESSERS

That close watch of the market and shrewd buying by a mercantile house redounds to the advantage of the patrons, is shown by a business transaction revealed to-day in Boston. Right when men's Spring suits are in most pressing demand and prices are at high level, Wolf's, "My Clothier," has landed a purchase of high-class clothing from the shops of A. Levy, makers of the "Quaker System Clothes," of Broadway, New York.

The Levy house has a wide range of popularity as manufacturers of best stock. The purchase was made at a low figure, which will enable Wolf to retail the goods at prices correspondingly below ordinary trade prices.

The sale begins to-morrow morning, just at the time when men's Spring suits have the call.

AMERICAN BOY SCOUT SCHEME IN 1915 PLAN

Plans are being made to incorporate the American Boy Scout movement among the numerous schemes which are being advanced by "Boston—1915" for the welfare of Boston. Throughout the city to-day, the chief idea is how best to help the boy men who are prominent not only in boys' work, but in many other lines of endeavor.

In a short time a meeting will be called of representative citizens and heads of Boston institutions, to talk over the American Boy Scout movement, and to formulate plans, through a special committee, on how best to work out the prime purpose of the movement, which is to develop the American youth, mentally, morally and physically, basing the work upon the boy's innate love of the military and thereby arousing in him a generous patriotism and chivalry, increasing morality and honor, love of country, obedience to his superiors and fealty to the flag.

Interested in the movement are the heads of Boston's public schools, social welfare movements, industrial and private schools, athletic associations, school, college, and department of the Young Men's Christian Association, and similar organizations, where the ideals of discipline, patriotism and character building for purposes of good citizenship and manliness will meet, and outline how the movement is to be conducted in Boston.

Superintendent of Schools Stratton D. Brooks, who has always been one of the most brilliant movements to benefit the boys. A movement of more than local interest, and one which, if put into right manner, deserves our united support.

Boys' Secretary Edward H. Ressler, of the Y. M. C. A., who has had charge of the Boy Scouts' Law, which shall co-operate with the heads of other organizations to render this movement a great success for every Boston boy.

Others are counting the success of the movement on their ability to lend a helping hand to create something that will uplift the boy.

More than others, however, the boys of Boston are interested in the Boy Scout movement. The leads are to be behind the Scouts' Law, which is based on the law of honor among each other, fealty and obedience to superiors, equals and superiors, and the Scout is taught to do his duty to God by being ever opportunity to be helpful to a fellow being and to keep himself physically strong, mentally awake and morally straight.

Boys' work, in its every sense, is one of the most vital issues before Boston to-day, and the Boy Scout movement is bound to receive the hearty support of every man and woman who has the welfare of the boy at heart.

America Borrowing Money in Paris

This Ought to Prove That the French Are Wiser in Some Ways Than We Are

Copyright, 1910, by American-Journal-Examiner

Perhaps you have seen in the dispatches from Paris the interesting announcements about American railroad owners borrowing from the French people.

Just at present the St. Paul asks for $50,000,000 of the Frenchmen's money in exchange for bonds to build railroads in America.

The other day the Lake Shore borrowed $20,000,000.

Hill gets money in Paris for the Great Northwestern.

The Harriman system borrows money there.

The Pennsylvania Railroad has had its tens of millions of dollars lent by Frenchmen to help out American development.

We mention these facts to impress upon our readers the wealth, the marvelous prosperity of the French people.

You realize that a nation which in 1870 paid five thousand millions of francs indemnity to Bismarck; a nation which since that time has lent hundreds of millions of dollars to Russia and now lends millions upon millions to us must be truly prosperous.

Having established the fact that the French, under their ways of living, saving, lending and law making, are really rich, prosperous and powerful, let us consider some of the things that the Frenchmen do.

The Frenchmen—that is to say, the French PEOPLE—own their own railroads. They have GOVERNMENT OWNERSHIP of railroads in France. Many of the most important lines belong to the government NOW. Under the law every foot of French railroad must belong to the government eventually.

In America they tell you that government ownership of railroads would mean panic, poverty, incompetent management and general national disaster.

When they tell you that, ask them how it is that when the American railroads want $20,000,000 or $50,000,000, they have to borrow the money from Frenchmen, who have a government that is not afraid to own its own railroads.

In France they give free food to children in the public schools. They issue tickets which provide the children with healthful, sufficient breakfasts, and the individual who distributes these breakfasts to the children cannot possibly know whether the father of the child paid for the tickets, as the prosperous fathers do, or whether, the father or mother being poor, the tickets have been given to the poor children for nothing. Tickets, free or paid for, are all alike.

In this country they tell you that if you should give free food to children who reach school so hungry that they cannot concentrate their minds, you would pauperize the population, start on a down grade to socialism and disintegration and soon have a race of Americans unwilling to care for their children, preferring to rely on government charity.

Ask why it is that the French give free breakfasts in public schools to children, yet the French do not become paupers or lazy.

In fact, they have millions upon millions to lend to this country, which says that it would be horrible to feed the STOMACHS of children in a republic which long ago decided that it is an absolute duty to feed the MINDS OF CHILDREN.

In France they do not fear to discuss and plan pensions for widows and pensions for old, worn-out workmen.

These things in our country are viewed with terror by the so-called "conservative minds."

We are taught to believe in America that while it is all right for the individual father to care for his children unselfishly, it would be all wrong for the American government—the people as a whole—to care for the weak, the unfortunate, the little children without an opportunity, the old, worn-out people who have rendered faithful service and the widows left with young children.

They will tell you in America that such things constitute PATERNALISM; that paternalism is the first step on the road to disintegration and national decay.

And the very men who tell you that your government cannot do things in America because it would make you poor, go across the ocean to France and there borrow from a race of thinking, far-advanced, civilized men, who are actually doing through their government those paternal things so strongly denounced here.

Readers, here is the explanation, which has doubtless occurred to you.

When the big men in America tell you that government ownership of public monopolies and necessities would mean less prosperity they mean in their hearts that it would mean less prosperity for them, for the MONOPOLISTS.

They know well—for France proves it—that ownership of necessities by the people would mean less for monopolists and more money for the people.

In this country we are free from paternalism and government ownership; the large sums of money and the large power are in the hands of individual monopolists.

In France, they do things differently, and there—in a small country which you could tuck away in one corner of Texas—you have a people so rich that the rest of the world borrows from that people.

And you have the millions upon millions which that people lends in the hands of the PEOPLE THEMSELVES, not in the hands of great banks and great monopolies.

Remember that the Hill and Harriman lines and the Pennsylvania Railroad don't go to France to borrow from the Bank of France or the Credit Lyonnais. They actually borrow from the millions of Frenchmen lending accumulated wealth.

Eighty millions of Americans, proud of their ability, possessing a country infinitely richer than France and all Europe, must go to a handful of Frenchmen and borrow of them to build their railroads—for the very simple reason that in France the Frenchmen plan things so that the PEOPLE themselves have money; whereas here in America the corporations plan things so that the corporation OWNERS have the money.

And in this there is a lesson for all of those who vote in the United States.

The Civil Service Commission and the Mayor's Appointments

Just because a man supported Mayor Fitzgerald for election should not be reason enough for the Civil Service Commission to refuse to certify to his fitness, in the event of his appointment to an office in the municipal service.

A man may take an active interest in politics and still be an honest and an able citizen, despite a somewhat popular impression to the contrary.

In considering a man's qualifications, the fact that he may have been appointed as a reward for his political services should not be deemed the bar absolute against him. An executive should not be compelled to pick his assistants from the ranks of his opponents or from the silent element. He should be allowed to have a few friends in his court.

The Civil Service Commissioners say they are obeying the letter of the law—they do not have to tell why they refuse to certify appointments, and, therefore, they will not. A little more regard for the spirit of the law might shift them into a more favorable light and set at rest the rumors that they are actuated in some instances by political considerations.

John B. Martin had the experience and training to fit him for penal institutions commissioner, but no reason was given for his rejection. We daresay Felix W. McGettrick would have made a good assessor. He is an able lawyer. What of it if both were Fitzgerald partisans?

Ex-Mayor Hibbard studied the city collecting department and instituted improved methods. Why was he rejected? The fact that his candidacy may have helped Mayor Fitzgerald should have no bearing on the case.

For the office of superintendent of public buildings a practical, common-sense man is required. The Mayor has named such a man, Matthew Cummings. As superintendent of the street cleaning division he was a success. He was on the job faithfully and intelligently. Special training is not necessary in a superintendent of public buildings. Mr. Cummings has shown administrative qualifications that are more essential.

DR. PARKHURST'S ARTICLE

The Enormously Wealthy Few and the Millions of Poor

Written for the Boston American

By Dr. C. H. Parkhurst

Copyright, 1910, by American-Journal-Examiner

SOCIETY will continue in its present condition of unstable equilibrium so long as the few are able to become enormously wealthy at the expense and impoverishment of the many.

With the increase of popular intelligence, and with the increased burdensomeness of economic conditions, the mass of the people are sooner or later going to come into their own; and if the money power and the aggregation and combination of capital are sufficient to outwit the people's registration of its will at the polls, some other and more effective means will be devised for accomplishing the popular desire and relieving the popular distress.

People are going to be able, eventually, to obtain the necessities of life at reasonable rates, which is something which they cannot do now. And, if that result cannot be attained short of socialistic methods, the experiment will be tried of putting andfers of production and distribution into the hands of the Government.

The experiment may prove a failure, but, at any rate, the permanent continuance of existing conditions is impossible. The millions of our population are too uncomfortable, too restless and too sensible of their rights under a "government of the people, for the people and by the people" to allow of it. By hook or crook the ultimate consumer is going to have his innings.

One of the recognized necessities of life is beef. Vegetarians will dissent from that proposition, but there are so few of them as to be a negligible quantity. Beef we want, beef we need, and beef we ought to have; and, of the four parties involved in the meat problem, it is the packers that are primarily responsible for its exorbitant cost to the consumer.

The four parties are the cattle raiser, the packer, the dealer and the consumer. A cattle raiser, who for the past nineteen years has been more or less actively engaged in the business, and who, along with others, was driven out of it by conspiracy of the packers, relates to us his experience substantially the following terms:

The packers every morning, before going to the stock yards, come to a "gentlemanly understanding" as to the price that they will pay that day for cattle. They are not in a "trust," but they are in an understanding. The packers agree upon a figure, without any reference to what the cattle may have cost the raiser.

The raiser may offer his stock to as many different packers as he pleases, but he will receive one and the same bid from each, and sooner or later will come to their terms. He will have to. The packer is the absolute sovereign of the situation. Having obtained the cattle at his own price, he disposes of them to the dealer at whatever rate he chooses.

The dealer loses nothing but the exorbitant rate imposed by the packer, for he is correspondingly exorbitant in his demand upon the consumer. It is the packer then that makes the big money, the dealer saves himself and a little over, and the cattle raiser and the consumer are the sufferers.

The cattle raiser is the victim of the packer at the first end of the business, and the consumer, through the dealer, is the victim of the packer at the other end of the business.

During all seasons of tariff tinkering the combination of packers maintains an efficient lobby at Washington, and are still further strengthening themselves and seeking to enhance their already exorbitant profits by throwing the blame for high prices upon the middlemen, the dealers, with a view of getting rid of them and, by eliminating one set of profits, making it a little easier for the consumers, and at the same time a little more remunerative for themselves—dividing between themselves and the consumers the profit hitherto made by the middlemen.

This puts good humor into the hearts of the people who eat the meat, and puts still more money into the pockets of those who pack the meat. In consequence of all this manipulation, thousands of cattle raisers during the past twenty-five years have been driven from the field, resulting, of course, in a diminution of the number of cattle, and a consequent rise in the market rates of beef.

However it may be in some departments of production, in the meat business combination of capital, agreements between the captains of industry, understandings between them—whether more or less formal—are a public disaster, as impoverishing to the many as they are remunerative to the few.

In the beef industry the minority are fattening on the leanness of the majority, a species of industrial despotism which is bound to be broken sooner or later by means public or otherwise.

In another article mention will be made of an enterprise already inaugurated which affords some promise of relief.

The City Boy on the Farm

By MILO HASTINGS

CITY men, from politicians and corporation lawyers up to plumbers, physicians and electricians can do no better for their children and for the future of the world than to send their sons and daughters to attend the great agricultural colleges of the country.

And this is the time of year to think about it; for, besides finishing his "prep" school, it is quite necessary that the city boy work a season on a farm before the matriculates at an agricultural college.

If he does not do this, the city young man is very likely to be considered a milksop and become the butt of his schoolmates.

This working on farms during the Summer vacation is an excellent thing to continue through the college course. The city boy, by going one season to the truck fields, another to the wheat harvest and a third to the stock farm, can thus gain a store of practical knowledge equal or superior to that of the boy who spends all his vacations on his father's farm.

The professions of the city to-day are not only badly overcrowded, but some of the formerly honored ways of acquiring wealth are losing class. Accepting "business opportunities" in exchange for political influence, taking fees for settling people's quarrels or charging princely sums for the use of one's name in financial matters are not in as high repute as formerly.

Producing things must necessarily continue to grow in repute as the public is awakened to the fact that the consumer pays for everybody and everything.

Of the productive industries agriculture is about the only one wherein the big fish do not eat up the little ones. Not only from the standpoint of honor, but also as a chance for financial gain, farming is a pretty safe occupation for the coming generation.

Should the present rate of crowding into the cities and the prevailing industrial system continue until our children were old men, a day's labor in the factory would scarcely buy a loaf of bread, and fruits and sweets would become the exclusive luxuries of the rich.

But such dire consequences cannot and will not result; instead, the tide will turn back to the land.

So let the country continue to pour its fresh blood into the city; meanwhile send the city boy to the agricultural college, from which he may return to the soil and take back a good, fresh supply of city brains with him.
